**The Changing Face of Christianity** Lamin O. Sanneh, Joel A. Carpenter, 2005 The questions and answers about Christianity and its contemporary mission now being formed in the African churches will have enormous influence in the years to come This volume offers nine new essays addressing this sea change and its importance for the future of Christianity

*The Changing Face of Christianity* Lamin Sanneh, Joel A. Carpenter, 2005-03-10 Over the past century Christianity's place and role in the world have changed dramatically In 1900 80 percent of the world's Christians lived in Europe and North America Today more than 60 percent of the world's Christians live outside of that region This change calls for a reexamination of the way the story of Christianity is told the methodological tools for its analysis and its modes of expression Perhaps most significant is the role of Africa as the new Christian heartland The questions and answers about Christianity and its contemporary mission now being developed in the African churches will have enormous influence in the years to come This volume offers nine new essays addressing this sea change and its importance for the future of Christianity Some contributions consider the development of non Western forms of Christianity others look at the impact of these new Christianities in the West The authors cover a wide range of topics from the integration of witchcraft and Christianity in Nigeria and the peacemaking role of churches in Mozambique to the American Baptist reception of Asian Christianity The Changing Face of Christianity shows the striking cultural differences between the new world Christianity and its western counterpart But with so many new immigrants in Europe and North America the faith's fault lines are not purely geographical The new Christianity now thrives in American and European settings and northerners need to know this faith better At stake is their ability to be good neighbors and perhaps to be good Christian citizens of the world

*Muslim-Christian Dialogue in Post-Colonial Northern Nigeria* M. Iwuchukwu, 2013-10-02 Iwuchukwu examines the perennial conflicts in different parts of northern Nigeria and why they are popularly called Muslim-Christian clashes Specifically he examines the immediate and remote factors that are responsible for the conflicts

*Christianity and Rabbinic Judaism* Jonas E. Alexis, 2013 Our way must be never knowingly support lies Having understood where the lies begin step back from that gangrenous edge Let us not glue back the flaking scale of the Ideology not gather back its crumbling bones nor patch together its decomposing garb and we will be amazed how swiftly and helplessly the lies will fall away and that which is destined to be naked will be exposed as such to the world Alexander Solzhenitsyn Enlightenment writer Voltaire was amazed that twelve fishermen some of them unlettered from an obscure place in the world called Galilee challenged an empire through self denial and patience and eventually established Christianity He seriously thought that twelve philosophers or intellectuals himself included would do the opposite and crush Christianity Voltaire's self appointed cheerleaders such as Diderot Helvitius d Holbach D Alembert Lamettrie and Baron Cloots among others tried to do just that and wrote volumes of work trying to tear down the basis of Christianity and erect an edifice of their own Diderot in particular

declared I would sacrifice myself perhaps if I could annihilate forever the notion of God Cloots wrote We shall see the heavenly royalty condemned by the revolutionary tribunal of victorious Reason Lametrie produced Man A Machine and an entire French encyclopedia was written between 1751 and 1772 by those philosophers because Christianity to a large degree had to go Voltaire would send letters to his disciples and friends saying crasez l inf me Rousseau of course was a disciple of Voltaire and declared that Voltaire s work inspired me The French Revolution failed Yet like all significant revolutions before and after that period the French Revolution indirectly had a theological root which was then a categorical and metaphysical rejection of Logos That theological substratum has jumped from one era to the next and had and still has historical political economic and spiritual ramifications This book is about the historical and theological struggle of that conflict which had its inception at the foot of the cross
