international authors looks beyond developments in the North American information and culture industries to map new forms of citizenship and exclusion. The chapters spotlight China, Ghana, India, Japan, Palestine, Russia, Singapore, and Venezuela and foreground the transnational formations of the European Union, the pan Arab and Spanish speaking markets and civil society actors in sub-Saharan Africa, the Middle East, and North America. Theoretically driven and empirically grounded, **Global Communications** defines communication broadly to include production, circulation, and consumption and addresses urgent questions about the inequalities of globalization and the possibilities of hybrid cultural forms and practices. **Handbook of Research on Deconstructing Culture and Communication in the Global South** Okocha, Desmond Onyemechi, Yousaf, Muhammad, Onobe, Melchizedec J., 2023-07-10. There are inequalities in global knowledge production in communication outlets, cultural practices, and governance problems. Under this symbiotic relationship, they reinforce the cultural ideas, values, and governance systems operating in the Western countries as an ideal and role model for the Global South countries. Media is regarded as the agent of change for communication and cultural values. Indigenous knowledge production and dissemination is an essential feature to get a better insight into Global South countries. Likewise, de-westernizing and demystifying societal culture and governance issues are pertinent in this age of information. The **Handbook of Research on Deconstructing Culture and Communication in the Global South** focuses on local production practices, keeping in view the local needs of communication outlets and societal and cultural sensitivities. This Indigenous knowledge would provide deeper and richer insights into the problems and sensitivities of Global South countries. To achieve this end, this book adopts a broader approach encompassing development issues, democratic values, digitalization practices, gender equality issues, and more. Covering topics such as biocultural activism, language ideology, and religiocentrism, this major reference work is a valuable resource for graduate students, sociologists, government officials, students and educators of higher education, librarians, development organization leaders, religious scholars, policymakers, researchers, and academicians.
