Communication From An Artificial Intelli:

Communicating Artificial Intelligence (AI) Seungahn Nah, Jasmine E. McNealy, Jang Hyun Kim, Jungseock Joo, 2020-12-18 Despite increasing scholarly attention to artificial intelligence AI studies at the intersection of AI and communication remain ripe for exploration including investigations of the social political cultural and ethical aspects of machine intelligence interactions among agents and social artifacts This book tackles these unexplored research areas with special emphasis on conditions components and consequences of cognitive attitudinal affective and behavioural dimensions toward communication and AI In doing so this book epitomizes communication journalism and media scholarship on AI and its social political cultural and ethical perspectives Topics vary widely from interactions between humans and robots through news representation of AI and AI based news credibility to privacy and value toward AI in the public sphere Contributors from such countries as Brazil Netherland South Korea Spain and United States discuss important issues and challenges in AI and communication studies The collection of chapters in the book considers implications for not only theoretical and methodological approaches but policymakers and practitioners alike The chapters in this book were originally published as a special issue of Communication Studies [Communication from an Artificial Intelligence Perspective](#) Andrew Ortony, Jon Slack, Oliviero Stock, 2012-12-06 Castel Ivano originally built in 1375 is one of many beautiful and impressive castles strategically placed atop hills in Trentino s Valsugana in Northern Italy It was in this castle on a series of brilliant sunny crisp November days in 1990 that an international group of computer scientists and cognitive scientists met at a workshop to discuss theoretical and applied issues concerning communication from an Artificial Intelligence and Cognitive Science perspective About forty people representing nine countries participated in the workshop either as speakers discussants or observers The main motivation for the workshop was to address the question of whether and how current computational approaches to communication can or might be able to accommodate the range of complexities that characterize both human human and human machine communication The chapters in this book are based on the papers that were presented at the workshop They are presented in an order that is determined primarily by the specificity of the topics they address The initial chapters are more theoretical in nature with an emphasis on formal approaches to communication The middle chapters focus on particular application issues such as the generation of multimedia documents and the role of planning in building systems to support human human or human machine interaction The final few chapters consider more general issues relating to communication such as the influence of social structure on and the role of affect in communication **An Introduction to Communication and Artificial Intelligence** David J. Gunkel, 2020-01-07 Communication and artificial intelligence AI are closely related It is communication particularly interpersonal conversational interaction that provides AI with its defining test case and experimental evidence Likewise recent developments in AI introduce new challenges and opportunities for communication studies Technologies such as machine translation of human languages spoken dialogue systems like Siri

algorithms capable of producing publishable journalistic content and social robots are all designed to communicate with users in a human like way This timely and original textbook provides educators and students with a much needed resource connecting the dots between the science of AI and the discipline of communication studies Clearly outlining the topic s scope content and future the text introduces key issues and debates highlighting the importance and relevance of AI to communication studies In lively and accessible prose David Gunkel provides a new generation with the information knowledge and skills necessary to working and living in a world where social interaction is no longer restricted to humans The first work of its kind An Introduction to Communication and Artificial Intelligence is the go to textbook for students and scholars getting to grips with this crucial interdisciplinary topic Communication from an Artificial Intelligence Perspective Organización del Tratado del Atlántico Norte Advanced Research Workshop,1992 Artificial Communication Elena Esposito,2022 Argues that what makes AI socially relevant and useful is not intelligence at all but something even more human communication If machines are going to improve their ability to address ever more important human issues it will not be because they have learned to think like people but because we have learned to communicate with them The Routledge Handbook of Artificial Intelligence and International Relations Diego Brasioli,Laura Guercio,Giovanna Gnerre Landini,Andrea de Giorgio,2025-05-15 The Routledge Handbook of Artificial Intelligence and International Relations examines how machines algorithms and data are reshaping the way nations interact negotiate and navigate global politics In the 21st century artificial intelligence AI has transformed from a theoretical wonder to a real force and with it the race to dominate new technologies is proving to be a key geopolitical concern This book looks at both the ways in which AI is transforming the landscape of international relations and the challenges this brings The book includes discussions on The need for regulations and oversight to make sure that AI is used in an ethical way AI s role in conflict resolution and peacekeeping and its influence on economic alliances The ethical and moral dilemmas posed by autonomous systems making life or death decisions Frameworks that ensure responsible and accountable use of AI How the choices we make today will define the contours of global equilibrium for generations to come With a variety contributions from policy analysts philosophers government officials scientists researchers and business representatives this book appeals to students and researchers of political science international relations computer science and ethics It also holds interest for professionals in government organizations and NGOs at national and international levels Navigating Modern Digital Communication Ethics and Law Kalafat Çat, Arzu,Yetgin, Muhammed Ali,Sarker, Jahidul Islam,2025-07-31 Navigating modern digital communication ethics and law becomes more complex as technology evolves The rise of social media direct messaging and digital content creation creates new ethical challenges and legal considerations around privacy misinformation intellectual property and online conduct Individuals and organizations must now balance the benefits of instant global communication with the responsibilities of digital rights transparency and legal standards As digital platforms become central to personal
