Communist Legislatures In Comparative Perspective:

Communist Legislatures in Comparative Perspective Daniel N. Nelson, Stephen White, 1982-06-18 **Post-Communist and Post-Soviet Parliaments** Philip Norton, David M. Olson, 2013-09-13 The sudden collapse of communism stimulated both the rapid emergence of fledgling democracies and scholarly attention to the post communist transition These newly democratized parliaments have been described as parliaments in adolescence This book identifies six parliaments which exemplify the wide range of developments in the new post communist political systems from the stable consolidated democracies to the less stable and more authoritarian states within which their respective parliaments function Finally the post communist parliaments are compared with the presumptively more established west European parliaments This book bridges the usual gap in research between the post communist parliaments and more normal democratic parliaments to develop a common legislative research perspective on both new and established parliaments This book was previously published as a special issue of the Journal of Legislative Studies **Post-Communist Parliaments** David M.

Olson, Gabriella Ilonszki, 2013-10-18 At the end of the founding or initial decade the new parliaments of post Communist Europe had developed two distinct types democratic and presidentially dominated Whilst in the early years they had been characterised as parliaments in adolescence they have through the second decade continued to improvise but also elaborate their working relationships with both their chief executives and electorates This book examines these adaptations in seven parliaments comparing both among them and with parliaments of west Europe Their changes are traced through four distinct sets in context members internal structure and working relationship with the executive This research develops a common perspective for our understanding of both new and developed legislatures by tracing the steps through which new parliaments begin adapt and become established This book was published as a special issue of Journal of Legislative Studies

Legislative Decline in the 21st Century Irina Khmelko, Rick Staphenurst, Michael L. Mezey, 2020-01-24 Irina Khmelko Frederick Staphenurst and Michael L Mezey have assembled an authoritative guide to the declining institutional capacities of legislatures around the world Case studies represent a diverse sample of countries ranging from newer democracies emerging from the post communist world to more established but at times fragile democracies in Asia Although largely focused on newer democratic systems readers will be able to identify key factors that explain the general global trend toward the empowerment of executives at the expense of national legislatures The cases although different from one another identify several factors that have explained the erosion of legislative power including historical legacies institutional design economic factors external factors political polarization personalization of politics and the rise of populism Original data and the presentation of testable theoretical propositions about the growing imbalance between executives and national legislatures moves the field in a promising new direction Legislative Decline in the 21st Century will be of interest to students and scholars of Legislative Studies and Comparative Politics Lessons drawn from these case studies will allow policy makers to

explore new solutions that can lead to the improved quality of democracy in countries around the world *Working Papers on Comparative Legislative Studies* Lawrence D. Longley,1994 **The New Parliaments of Central and Eastern Europe** Philip Norton,David M. Olson,2013-11-05 What role have parliaments played in the dramatic changes occurring in Eastern and Central Europe Adopting a common research framework the contributors analyse in detail the role and operations of parliaments in ten of the new democracies They focus on what determines their capacity to have some impact on public policy They identify the significance of parliaments operating in often hybrid systems of government with the relationship between the executive and legislature not well defined and with an absence of constraining influence that typify western political systems **Designs for Democratic Stability** Abdo I. Baaklini,Helen Desfosses,2016-06-16 Since the 1980s and the collapse of communist military and race based regimes across the world the euphoria has given way to the question of how to enhance the viability of democratic constitutional government This text covers this issue **Working Papers on Comparative Legislative Studies II** Lawrence D. Longley,Attila Ágh,1997 *Democratic Legislative Institutions: A Comparative View* David M. Olson,2015-02-24 This text summarizes the research on and experiences of democratic legislatures around the world It focuses on what legislatures are and what they do as both consequence of and contributor to democratic self government *Legislatures* Philip Norton,1990 Legislatures is a wide ranging compilation of original writing arranged thematically on legislatures covering their development functions types relationship to British law and the formation of policy and ideas on the reform of Parliament at the present time *Handbook of Political Science Research on the USSR and Eastern Europe* Ray Taras,1992-10-23 This critical history of and guide to Soviet studies aims to take stock of the achievements and shortcomings in Western research on the region s politics and to serve as a who s who of Western Sovietologists identifying many prominent political scientists from the former Communist states *Power and Social Structure* Aleksandra Jasińska-Kania,Melvin L. Kohn,Kazimierz M. Słomczyński,1999 *THE POLITICS OF LAWMAKING IN POST-MAO CHINA. (VOLUMES I AND II) (LAW-MAKING)*. Murray Scot Tanner,1991 The study closes by questioning whether or not the Chinese lawmaking system is too fragmented and conservative to meet its major current task developing the legal infrastructure essential to China s economic structural reform **The Bookseller** ,1982 **Political Systems of the World** J. Denis Derbyshire,Ian Derbyshire,1996 This work covers all the global and regional changes of the post Cold War world including the ex Soviet republics the fragmentation of Yugoslavia and Czechoslovakia the emergence of a new South Africa newly sovereign countries the changing role of NATO and various global alliances **The British National Bibliography** Arthur James Wells,1968 **Women, State, and Party in Eastern Europe** Sharon L. Wolchik,Alfred G. Meyer,1985 These essays by American Canadian and East European scholars provide a comprehensive look at the status of women in Eastern Europe with particular emphasis on the postwar situation [The Development of the System of Representation in Yugoslavia](#) George A. Potts,1996-07-25 This book examines the Yugoslavian attempt to adapt Marx s Paris

Commune model of participatory democracy to the context of a one party nation state particularly with the representational system put in place between 1974 and 1990 It is the only book to examine in depth the attempted integration of worker self management in the workplace with political representation at the levels of commune republic and federation It includes detailed references to many studies in Yugoslav journals available only in Serbo Croatian on the effectiveness of participation in workplaces and local government The extensive data provides information on self management representation local governments the league of Communists and other dimensions of the former Yugoslavia It also provides a critical but positive assessment of the Yugoslav experiment in participatory democracy at workplace and communal levels that has significance beyond the Yugoslav case Bowker's Law Books and Serials in Print ,1986 **Soviet Law** William Elliott Butler,1988
