Earth First! Martha F. Lee, 1995-11-01 In the summer of 1980 Dave Foreman along with four conservationist colleagues founded the millenarian movement Earth First A provocative counterculture that ultimately hoped for the fall of industrial civilization the movement emerged in response to rapid commercial development of the American wilderness The earth should come first was a doctrine that championed both biocentrism an emphasis on maintaining the earth s full complement of species and biocentric equality the belief that all species are equal Martha Lee was successful in gaining extraordinary access to information about the movement as well as interviews with its members While following Earth First s development and methods she illustrates the inherent instability and the dangers associated with all millenarian movements This book will be of interest to environmentalists and those interested in political science and sociology The Year 2000 Charles B. Strozier, Michael Flynn, 1997-08 A fascinating collection of predictions for the end times in the year 2000 The Year 2000 is at hand The end of the millennium means many things to many people but it has significance for almost everyone A thousand years ago monks stopped copying manuscripts and religious building projects came to a halt as panic swept Europe Today anxiety about global warming government power superviruses even recycling is on some level rooted in the fear of irreversible cataclysm In a landscape shadowed by racial conflict technological upheaval AIDS and nuclear weapons we reasonably fear the end of history 2000 looms large in our religious political and cultural imagination But while 2000 brings dread it also raises the prospect of transformation There is hope to be found in the apocalyptic This panoramic volume explores how the Year 2000 operates in contemporary political discourse from Black evangelical politics to radical right wing rhetoric One section is devoted specifically to apocalyptic violence analyzing twentieth century cults and cultural movements from David Koresh who renamed his Waco compound Ranch Apocalypse and perished in a modern day Armageddon that fueled the millennialist angst of other extremist groups to environmental campaigns like Earth First that also rely on the language of violence and imminent doom in their greening of the Apocalypse Eco-Warriors Rik Scarce, 2016-06-16 Eco Warriors was the first in depth look at the people actions history and philosophies behind the radical environmental movement Focusing on the work of Earth First the Sea Shepherds Greenpeace and the Animal Liberation Front among others Rik Scarce told exciting and sometimes frightening tales of front line warriors defending an Earth they see as being in environmental peril While continuing to study these movements as a Ph D student Scarce was jailed for contempt of court for refusing to divulge his sources to prosecutors eager to thwart these groups activities In this updated edition Scarce brings the trajectory of this movement up to date including material on the Earth Liberation Front and provides current resources for all who wish to learn more about one of the most dynamic and confrontational political movements of our time Literate captivating and informative this is also an ideal volume for classes on environmentalism social movements or contemporary politics Earth First!
