lacuna has become more pronounced as the threat of piracy terrorism and other acts of maritime political violence have caused littoral states and commercial entities alike to consider the use of private security to mitigate risks Maritime Private Security is an edited volume specifically dedicated to combating the absence of academic research in this area The discussion of this multi faceted subject is organised into four key parts Part I The Historical and Contemporary Market in Maritime Private Security Services Part II The Emergence of Private Anti Piracy Escorts in the Commercial Sector Part III The Privatization of Coast Guard Services Part IV Private Security Responses to Maritime Terrorism This book will be of much interest to students of naval policy and maritime security private security companies piracy and terrorism international law and IR in general [Sea Shepherd Log](#) ,1994 [Sea Shepherd](#) Claude G.
