John McWhorter,2003-01-07 There are approximately six thousand languages on Earth today each a descendant of the tongue first spoken by Homo sapiens some 150 000 years ago While laying out how languages mix and mutate over time linguistics professor John McWhorter reminds us of the variety within the species that speaks them and argues that contrary to popular perception language is not immutable and hidebound but a living dynamic entity that adapts itself to an ever changing human environment Full of humor and imaginative insight The Power of Babel draws its illustrative examples from languages around the world including pidgins Creoles and nonstandard dialects *The Open Court* ,1903 The Captivity of Innocence André LaCocque,2010-04-02 In this study the third panel of a trilogy on J s tales about evil and innocence in the primeval era the author turns to Genesis 11 1 9 another parable this time on the so called Tower of Babel The Captivity of Innocence analyzes a systemic robotization of society as a way of keeping innocence behind bars contending that innocence never fails to offend never fails to stir envy and hate Here evil is not wrought by an individual like Cain or Lamech but by all the earth so that the summit of evil is now reached before Abraham s breakthrough in Genesis following chapter The present analysis uses a variety of techniques to interpret the biblical text including historical critical literary sociopolitical psychoanalytic and deconstructive approaches The inescapable conclusion is that Babel is the Kafkaesque image of our world and is a powerful paradigm of our hubristic contrivances and constructions Des Tours de Babel says Derrida in order to deny our finiteness Then innocence is trampled upon but it is not overcome Babel Babylon s fate is to crumble down and to bring up from her ashes the Knight of Faith Socialism David Goldstein,1903
