Challenged Scientists:

The Challenged Scientists Robert A. Weisgerber, 1991-06-25 This volume points out how the increasing need for scientists in this country can be lessened by utilizing a long overlooked pool of scientific talent in those persons who are scientifically oriented but who happen to have physical or sensory disabilities Robert A Weisgerber argues that the main obstacle to the mainstreaming of the disabled is the reluctance of the nondisabled to offer opportunities and support By speaking positively to the disabled concerning current recruitment efforts within the educational and the professional scientific communities and to the public regarding the capability energy and competence of many disabled persons this discussion aims to break down barriers An important part of the text is comprised of 21 success stories of college students and career scientists all disabled yet highly motivated and excelling in their field Together they can encourage other disabled persons to consider careers in the sciences provide support for their families and teachers and remind the caring public to view disabilities in their proper perspective The technical results of the research conducted appear in the appendix and suggestions for increasing opportunities for the disabled educating the scientific profession about their qualifications and improving relevant information services conclude the study **Disabled USA.** ,1985 **American Rehabilitation** ,1977 The Flaming Sword ,1914 *Huia Onslow* Muriel Wheldale Onslow,1924 Biography of New Zealand born son of Lord Onslow Includes references to his return visit to New Zealand in 1904 Library of Congress Subject Headings Library of Congress.
