## **Challenging Chicago:**

*Challenging Chicago* Perry Duis, 1998 *Challenging Chicago* reveals the survival strategies to which the many people who flocked to the city resorted especially those of the lower and middle classes for whom urban life was a new experience

**Chicago** Daniel R. Block, Howard B. Rosing, 2015-09-03 Chicago began as a frontier town on the edge of white settlement and as the product of removal of culturally rich and diverse indigenous populations The town grew into a place of speculation with the planned building of the Illinois and Michigan canal a boomtown and finally a mature city of immigrants from both overseas and elsewhere in the US In this environment cultures mixed first at the taverns around Wolf Point where the forks of the Chicago River join and later at the jazz and other clubs along the Stroll in the black belt and in the storefront ethnic restaurants of today Chicago was the place where the transcontinental railroads from the West and the trunk roads from the East met Many downtown restaurants catered specifically to passengers transferring from train to train between one of the five major downtown railroad stations This also led to destination restaurants where Hollywood stars and their onlookers would dine during overnight layovers between trains At the same time Chicago became the candy capital of the US and a leading city for national conventions catering to the many participants looking for a great steak and atmosphere Beyond hosting conventions and commerce Chicagoans also simply needed to eat safely and relatively cheaply Chicago grew amazingly fast becoming the second largest city in the US in 1890 Chicago itself and its immediate surrounding area was also the site of agriculture both producing food for the city and for shipment elsewhere Within the city industrial food manufacturers prospered highlighted by the meat processors at the Chicago stockyards but also including candy makers such as Brach's and Curtiss and companies such as Kraft Foods At the same time large markets for local consumption emerged The food biography of Chicago is a story of not just culture economics and innovation but also a history of regulation and regulators as they protected Chicago's food supply and built Chicago into a city where people not only come to eat but where locals rely on the availability of safe food and water With vivid details and stories of local restaurants and food Block and Rosing reveal Chicago to be one of the foremost eating destinations in the country *Black Chicago's First Century* Christopher Robert Reed, 2005-07-25 In *Black Chicago's First Century* Christopher Robert Reed provides the first comprehensive study of an African American population in a nineteenth century northern city beyond the eastern seaboard Reed's study covers the first one hundred years of African American settlement and achievements in the Windy City encompassing a range of activities and events that span the antebellum Civil War Reconstruction and post Reconstruction periods The author takes us from a time when black Chicago provided both workers and soldiers for the Union cause to the ensuing decades that saw the rise and development of a stratified class structure and growth in employment politics and culture Just as the city was transformed in its first century of existence so were its black inhabitants Methodologically relying on the federal pension records of Civil War soldiers at the National Archives as well as previously neglected photographic

evidence manuscripts contemporary newspapers and secondary sources Reed captures the lives of Chicago's vast army of ordinary black men and women He places black Chicagoans within the context of northern urban history providing a better understanding of the similarities and differences among them We learn of the conditions African Americans faced before and after Emancipation We learn how the black community changed and developed over time we learn how these people endured how they educated their children how they worked organized and played Black Chicago's First Century is a balanced and coherent work Anyone with an interest in urban history or African American studies will find much value in this book

*Binga* Don Hayner, 2019-11-15 *Binga* is the definitive full length biography of Jesse Binga the first black banker in Chicago Born into a large family in Detroit Binga arrived in Chicago in 1892 in his late twenties with virtually nothing Through his wits and resourcefulness he rose to wealth and influence as a real estate broker and in 1908 he founded the Binga Bank the first black owned bank in the city But his achievements were followed by an equally notable downfall Binga recounts this gripping story about race history politics and finance The Black Belt where Binga's bank was located was a segregated neighborhood on Chicago's South Side a burgeoning city within a city and its growth can be traced through the arc of Binga's career He preached and embodied an American gospel of self help and accrued wealth while expanding housing options and business opportunities for blacks Devout Roman Catholics he and his wife Eudora supported church activities and various cultural and artistic organizations their annual Christmas party was the Black Belt's social event of the year But Binga's success came at the price of a vicious backlash After he moved his family into a white neighborhood in 1917 their house was bombed multiple times his offices were attacked twice and he became a lightning rod for the worst race riots in Chicago history which took place in 1919 Binga persevered but starting with the stock market crash of October 1929 a string of reversals cost him his bank his property and his fortune A quintessentially Chicago story Binga tells the history of racial change in one of the most segregated cities in America and how an extraordinary man stood as a symbol of hope in a community isolated by racial animosity

**Chicago's Greatest Year, 1893** Joseph Gustaitis, 2013-05-01 In 1893 the 27.5 million visitors to the Chicago World's Fair feasted their eyes on the impressive architecture of the White City lit at night by thousands of electric lights In addition to marveling at the revolutionary exhibits most visitors discovered something else beyond the fair's 633 acres lay a modern metropolis that rivaled the world's greatest cities The Columbian Exposition marked Chicago's arrival on the world stage but even without the splendor of the fair 1893 would still have been Chicago's greatest year An almost endless list of achievements took place in Chicago in 1893 Chicago's most important skyscraper was completed in 1893 and Frank Lloyd Wright opened his office in the same year African American physician and Chicagoan Daniel Hale Williams performed one of the first known open heart surgeries in 1893 Sears and Roebuck was incorporated and William Wrigley invented Juicy Fruit gum that year The Field Museum the Art Institute of Chicago and the Museum of Science and Industry all started in 1893 The Cubs new ballpark opened in this year and an Austro-Hungarian immigrant

began selling hot dogs outside the World's Fair grounds. His wares became the famous Chicago hot dog. Cities are not buildings; cities are people, writes author Joseph Gustaitis. Throughout the book, he brings forgotten pioneers back to the forefront of Chicago's history, connecting these important people of 1893 with their effects on the city and its institutions today. The facts in this history of a year range from funny to astounding, showcasing innovators, civic leaders, VIPs, and power brokers who made 1893 Chicago about so much more than the fair.

**Building a Housewife's Paradise** Tracey Deutsch, 2010-05-01. Supermarkets are a mundane feature in the landscape, but as Tracey Deutsch reveals, they represent a major transformation in the ways that Americans feed themselves. In her examination of the history of food distribution in the United States, Deutsch demonstrates the important roles that gender, business class, and the state played in the evolution of American grocery stores. Deutsch's analysis reframes shopping as labor and embeds consumption in the structures of capitalism. The supermarket, that icon of postwar American life, emerged not from straightforward consumer demand for low prices, Deutsch argues, but through government regulations, women customers' demands, and retailers' concerns with financial success and control of the shop floor. From small neighborhood stores to huge corporate chains of supermarkets, Deutsch traces the charged story of the origins of contemporary food distribution, treating topics as varied as everyday food purchases, the sales tax, postwar celebrations, and critiques of mass consumption and 1960s and 1970s urban insurrections. Demonstrating connections between women's work and the history of capitalism, Deutsch locates the origins of supermarkets in the politics of twentieth-century consumption.

**Challenging the Daley Machine** Leon M. Despres, Kenan Heise, 2005-04-20. Publisher description.

**Turning the Tables** Andrew P. Haley, 2011-05-30. In the nineteenth century, restaurants served French food to upper-class Americans with aristocratic pretensions, but by the turn of the century, even the best restaurants cooked ethnic and American foods for middle-class urbanites. In *Turning the Tables*, Andrew P. Haley examines how the transformation of public dining that established the middle class as the arbiter of American culture was forged through battles over French language menus, scientific eating, cosmopolitan cuisines, unescorted women, un-American tips, and servantless restaurants.

**Chicago's Modern Mayors** Dick Simpson, Betty O'Shaughnessy, 2024-01-23. Political profiles of five mayors and their lasting impact on the city. Chicago's transformation into a global city began at City Hall. Dick Simpson and Betty O'Shaughnessy edit in-depth analyses of the five mayors that guided the city through this transition, beginning with Harold Washington's 1983 election: Washington, Eugene Sawyer, Richard M. Daley, Rahm Emanuel, and Lori Lightfoot. Though the respected political science sociologist and journalist contributors approach their subjects from distinct perspectives, each essay addresses three essential issues: how and why each mayor won the office, whether the City Council of their time acted as a rubber stamp or independent body, and the ways the unique qualities of each mayor's administration and accomplishments influenced their legacy. Filled with expert analysis and valuable insights, *Chicago's Modern Mayors* illuminates a time of transition and change and considers the politicians who, for better and worse, shaped the Chicago of
