## Changing Planes:

Changing Planes Ursula K. Le Guin, 2014-03-04 Winner of the PEN Malamud Award for Short Story A New York Times Notable Book A fantastical travel guide reminiscent of Gulliver's Travels in which the narrator visits fifteen planes and describes the people language and customs with the eye of an anthropologist and the humor of a satirist USA Today In these vivid entertaining philosophical dispatches San Francisco Chronicle literary legend Ursula K Le Guin weaves together influences as wide reaching as Borges The Little Prince and Gulliver's Travels to examine feminism tyranny mortality and immortality art and the meaning and mystery of being human Sita Dulip has missed her flight out of Chicago But instead of listening to garbled announcements in the airport she's found a method of bypassing the crowds at the desks the nasty lunch the whimpering children and punitive parents and the blue plastic chairs bolted to the floor she changes planes Changing planes not airplanes of course but entire planes of existence enables Sita to visit societies not found on Earth As Sita Dulip's Method spreads the narrator and her acquaintances encounter cultures where the babble of children fades over time into the silence of adults where whole towns exist solely for holiday shopping where personalities are ruled by rage where genetic experiments produce less than desirable results With the eye of an anthropologist and the humor of a satirist USA Today Le Guin takes readers on a truly universal tour showing through the foreign and alien indelible truths about our own human society

Mapping Multiple Literacies Diana Masny, David R. Cole, 2012-06-14 Mapping Multiple Literacies brings together the latest theory and research in the fields of literacy study and

European philosophy Multiple Literacies Theory MLT and the philosophical work of Gilles Deleuze It frames the process of becoming literate as a fluid process involving multiple modes of presentation and explains these processes in terms of making maps of our social lives and ways of doing things together For Deleuze language acquisition is a social activity of which we are a part but only one part amongst many others Masny and Cole draw on Deleuze s thinking to expand the repertoires of literacy research and understanding They outline how we can understand literacy as a social activity and map the ways in which becoming literate may take hold and transform communities The chapters in this book weave together theory data and practice to open up a creative new area of literacy studies and to provoke vigorous debate about the sociology of literacy
