Changing The River:

Quickly Changing River Meena Alexander, 2008-01-09 Recipient 2008 Guggenheim Fellowship With her strong voice and precise language Meena Alexander has crafted this visceral worldly collection of poems The experience she brings to the reader is sensual in many senses of the word as she invokes bright colors sounds smells and feelings Her use of vivid imagery from the natural world birds lilies horses up against that from the world of humans oppression slavery and violence ties her work to the earth even as she works a few mystical poetic transformations In Alexander s world the songs of a bird can become the voice of a girl in a caf and the red juice of mulberries can be as shocking as blood When she focuses her attention on the cloth of a girl s sari the material of a woman s life or the blood in her veins she speaks to the particular experience of women in the world The women are vividly present sometimes they are hidden or veiled juxtaposed with open gardens in full bloom It is difficult not to come away from Quickly Changing River without a new sense of the power and frailty of being alive

 Mzime Ndebele-Murisa, 2021-01-11 This book provides an analysis of the ecological conditions and ecosystem goods and
 services of the Zambezi River Basin ZRB the fourth largest river in Africa Various environmental and anthropogenic factors
 inclusive of climate environmental flows hydrology morphology pollution and land use changes among others and their
 interactions are considered as drivers of the river ecosystems The impacts of these drivers on aquatic biota river ecological
 integrity and the livelihoods of surrounding communities are analysed within the socio economic policy context The book
 goes beyond the usual inventories and basic research by using the comparative research method CRM in a trans disciplinary
 manner This CRM analytical approach in this book seeks to interrogate the differences or similarities in socio economic
 systems livelihoods ecological systems ecosystem goods and services their usage and management under the seemingly
 different cultural socio economic conditions expected across borders that are within the ZRB The multidisciplinary approach
 also connects the typical ecological research with social dimensions in a holistic manner The book therefore provides
 empirical and research based evidence to support strategic planning and policy development in the wake of ecological
 changes that nations and indeed regions such as the ZRB are grappling with while seeking to sustainably manage precious
