## **A Foreign Woman:**

The 'Foreignness' of the Foreign Woman in Proverbs 1-9 Nancy Nam Hoon Tan, 2008-12-10 This study is on the figure and also commonly called the Strange Woman in Proverbs 1 9 It is an attempt to understand the meaning which defines her and the origin and development of her motif The first part argues against defining her as a sexual predator but as an ethnic foreigner according to the lexical studies of and It traces her origin within the Hebrew scripture the legal documents and especially to the DtrH s portrayal of foreign women wives Hence it distinguishes the two motifs the motif of the adulteress and the motif of the foreign woman the latter which symbolizes the temptation to apostasy The study will then go on to explain how the writer of Proverbs 1 9 employs this motif of the foreign woman in his poetic composition The second part tracks the development of this motif through the subsequent Jewish Wisdom literature and observes how it changes and loses the foreignness of her original motif in Eccl 7 26 4Q184 LXX Proverbs Hebrew Ben Sira Greek Ben Sira and finally disappears in Wisdom of Solomon It proffers to understand this gradual transformation against a background of social and religious change

**The Foreign Woman in British Literature** Marilyn D. Button, Toni Reed, 1999-11-30 While England has been strengthened by a proud isolationism she has simultaneously been enriched by the economic social and political complexities that have emerged as people of different ethnic and cultural backgrounds have moved within her borders or when her own citizens have emigrated among those foreigners to live or rule This book explores the foreign element in English culture and the attempt by English writers from the early 19th to the mid 20th century to portray their complex and often ambiguous responses to that doubly foreign element among them the foreign woman While being foreign may begin with national or ethnic difference the contributors to this book expand it to include other forms of alienation from a dominant culture resulting from gender race class ideology or temperament The many factors shaping English national identity including British imperialism immigration patterns English family and social structures and English common law have been shaped by gender related issues Though not a prominent literary figure the foreign woman in England has received increasingly critical attention in recent years as a psychological and sociological phenomenon By beginning with Byron in the early 19th century and concluding with Lawrence Durrell in the 20th century this study contributes to a more comprehensive vision of the foreign woman as she is portrayed by a number of British authors including Shelley Wordsworth Charlotte Bront Elizabeth Barrett Browning Wilkie Collins George Eliot Joseph Conrad D H Lawrence and Anita Brookner
