Cash Traps:

Payback James P. Andrew, Harold L. Sirkin, John Butman, 2007-01-09 If you're like most people you bet your career and company on innovation because you must Payback Reaping the Rewards of Innovation offers you a new way to think about and manage innovation that will dramatically improve the odds of success Authors James Andrew and Harold Sirkin senior partners in The Boston Consulting Group describe an approach to managing innovation based on the concept of a cash curve which tracks investment against time They ask the questions you need to ask How much should you invest in a new product or service How fast should you push it to market How quickly can you get to optimal value How much additional investment should you pour into sustaining and building the product or service Payback offers you practical and economically sound advice on when to pursue cash flow indirectly by first pursuing other benefits such as brand and knowledge It also shows you how to reshape the cash curve by using different business models integrator orchestrator and licensor each of which balances risk and reward differently The authors then present a short list of decisions and activities that you must make not delegate to achieve a high return on innovation You won't find facile answers in Payback but you will find valuable insights and practical guidance for mastering one of the most challenging and critical business activities innovation *The Boston Consulting Group on Strategy* Carl W. Stern, Michael S. Deimler, 2012-06-14 A collection of the best thinking from one of the most innovative management consulting firms in the world For more than forty years The Boston Consulting Group has been shaping strategic thinking in business The Boston Consulting Group on Strategy offers a broad and up to date selection of the firm's best ideas on strategy with fresh ideas insights and practical lessons for managers executives and entrepreneurs in every industry Here's a sampling of the provocative thinking you'll find inside You have to be the scientist of your own life and be astonished four times at what is what always has been what once was and what could be The majority of products in most companies are cash traps They are not only worthless but a perpetual drain on corporate resources Use more debt than your competition or get out of the business When information flows freely reputation more than reciprocity becomes the basis for trust As a strategic weapon time is the equivalent of money productivity quality even innovation When brands become business systems brand management becomes far too important to leave to the marketing department The winning organization of the future will look more like a collection of jazz ensembles than a symphony orchestra Most of our organizations today derive from a model whose original purpose was to control creativity Rather than being an obstacle uncertainty is the very engine of transformation in a business a continuous source of new opportunities IP assets lack clear property lines Every bit of intellectual property you can own comes with connections to other valuable innovations *Traps Baited with Orphan, Or, What is the Matter with Life Insurance?* Elizur Wright, 1877 **The Financial Times Guide to Strategy** Richard Koch, 2021-09-15 YOUR COMPLETE GUIDE TO STRATEGY PLAIN AND SIMPLE The Financial Times Guide to Strategy is your unbeatable reference on strategy It offers an incisive overview of both corporate level and business
