**Autobiographies by Americans of Color, 1995-2000** Deborah Stuhr Iwabuchi,Rebecca Stuhr,2003 This annotated bibliography covers the years 1995 through 2000 which saw a tremendous output of autobiographical material by Americans of color Publishers released works by prominent civil rights leaders musicians entertainers athletes as well as unsung heroes with the courage to strive for a better life This is the long awaited follow up to the first volume of the Autobiographies by Americans of Color bibliography series *Shakspeare Diversions* Francis Jacox,1877 **Fuentes,Terra Nostra, and the Reconfiguration of Latin American Culture** Michael Abeyta,2006 Widely acknowledged as Carlos Fuentes s most ambitious novel Terra Nostra is a paradigm shifting work that has generated a virtual cottage industry of scholarly analysis Michael Abeyta has now taken a new approach to this celebrated novel by considering how giving a gift is like telling a story Grounding his study on the work of Derrida and Bataille Abeyta focuses on the theme of the gift in Terra Nostra analyzing how gift giving excess expenditure sacrifice and exchange give shape to the novel The question of giving leads him into contemplation of such parallel issues as money and exchange economies the gift s role in art and narration and the Baroque in Latin American culture an elaborate set of arguments that puts Fuentes s understanding of Latin American culture in a surprising new light Abeyta s study opens new windows on this difficult work as he grapples intelligently with the sometimes dizzying conceptual dances that Fuentes performs He shows how Fuentes s rereading of Latin American history confronted important changes during the initial encounter between Europe and the Americas which coincided with the spread of the European market and the shift from a gift to an exchange economy from a culture in which economic relations were based on sacrifices tributes or gifts to one in which market forces predominated He also engages in the recent scholarly debate on the potlatch and its implications in New World culture As Abeyta reveals underlying Fuentes s treatment of the gift is a deep questioning of utopian thought and its impact throughout Latin America s history His insights help define Terra Nostra s place in current discussions in literary theory about art economy and the question of the gift and this work stand to be hailed
