Introduction to Technical Services for Library Technicians Ruth C Carter, Mary L Kao, 2023-05-31 Everything you need to know about technical services in one handy volume For library technicians working in technical services and students in library technology programs Introduction to Technical Services for Library Technicians is a practical how to do it text that shows how to perform the behind the scenes tasks the job requires This essential volume comes complete with a suggested reading list helpful charts and tables a look at trends and issues to consider and review questions at the end of each chapter From the Preface Budgetary constraints and the computerization of library functions and routines have changed the composition of library personnel forever Library technicians are being hired to replace librarians in many library areas particularly in technical services What has not kept up with this trend are the training and education of library technicians a necessary component of a successfully operating library This book examines terminology organization and the practical aspects of the tasks that technical services workers deal with every day Here's a sample of what is explored in Introduction to Technical Services for Library Technicians computers and library automation bibliographic utilities and networks including OCLC RLG UTLAS the Internet and more library cooperation from the local to the international level acquisitions procedures gifts and exchanges copy cataloging original cataloging subject cataloging and the MARC record government publications serials ordering cataloging control terminology e journals and more preservation treating damaged materials book repair good housekeeping practices factors of deterioration and more Intended primarily as a textbook for students in a two year library technology program or one year certificate program this book will also serve very well as a general reference for library technicians or other staff members working in the technical services area

Introduction to Technical Services for Library Technicians Marty Bloomberg, G. Edward Evans, 1976

Cataloging and Classification for Library Personal Mary Liu Kao, 2003

Beginning Cataloging Jean Weihs, Sheila S. Intner, 2016-12-12 Now thoroughly updated to include recent changes with RDA this easy to use primer provides an introduction to standardized cataloging that will benefit library technicians as well as students in library technician and teacher librarian programs This easy to use primer provides a complete introduction to current standard cataloging practice The simple language helpful examples and clear descriptions of processes and techniques make it a valuable tool for any beginning cataloger or worker in a technical

services department Updated with key information about RDA principles and practices and following the same pragmatic approach as the first edition the book empowers students with an understanding of the core principles and language of cataloging Readers will learn how to apply standard descriptive cataloging rules to assign subject headings and classification numbers and to create electronic records The book first examines the cataloging in publication data found on the verso of most books Then chapter by chapter it explains how this data can be developed into a full bibliographic record that can be used in an online public catalog covering all types of material formats books audiovisuals images sound electronic resources and more This guide will also serve as a workbook in formal education programs or distance education programs and be useful to library technicians and those working in areas where formal training is inaccessible [Cataloging Library Resources](#) Marie Keen Shaw,2017-01-26 While there are many cataloging texts very few are written specifically for library support staff This is the one and only book purposefully aligned with the new American Library Association Library Support Staff Certification LSSC competency standards for Cataloging and Classification Written in clear language by someone who teaches cataloging in a library support staff program and featuring practical examples Cataloging Library Resources An Introduction will help library support staff become effective catalogers Other books on this topic are written for professional librarians rather than support staff And although 85% of library support staff do not hold professional degrees many are expected to do the complex and technical work of catalogers This book provides many examples that support staff can use to learn how to catalog all types of library print media and digital materials using the most up to date Library of Congress standards Using this handbook as a guide readers will be able to perform the ALA LSSC cataloging and classification competencies and the new RDA FRBR and BIBFRAME standards listed below Apply and manage the appropriate processes computer technology and equipment for cataloging and classification Apply principles of Resource Description and Access RDA and the Functional Requirements for Bibliographic Records FRBR when creating cataloging records Apply principles of the Bibliographic Framework Initiative BIBFRAME and utilize the BIBFRAME model to create cataloging records Use the basic cataloging and classification tools both print and online including bibliographic utilities and format standards Understand the value of authority control and its basic principles and can identify and apply appropriate access points for personal names corporate bodies series and subjects Explain the value and advantages of cooperative or collaborative cataloging practices to enhance services Know the basics of standard metadata formats and cataloging rules to select review and edit catalog records and to generate metadata in various formats And more [Introduction to Technical Services for Library Technicians](#) Mary Liu Kao,2010 For library technicians working in technical services and students in library technology programs Introduction to technical services for library technicians is a practical how to do it text that shows how to perform the behind the scenes tasks the job requires Comes complete with a suggested reading list helpful charts and tables and review questions at the end of each chapter [Introduction to Public Services for Library Technicians](#) Marty
