Devolution and British Politics Michael Oneill, 2014-05-22 Devolution has transformed the British Polity in the last decade Taking this profound change as its theme Devolution and British Politics is an up to date comprehensive and effective review of the origins and development of the devolution process Devolution in British Politics offers a de centralised assessment of British politics and encourages critical thinking regarding contemporary political theory Devolution and social citizenship in the UK Greer, Scott L., 2009-01-21 Most of the expansive literature on social citizenship follows its leading thinker T H Marshall and talks only about the British state often referring only to England But social citizenship rights require taxation spending effective public services and politics committed to them They can only be as strong as politics makes them That means that the distinctive territorial politics of the UK are reshaping citizenship rights as they reshape policies obligations and finance across the UK This timely book explores how changing territorial politics are impacting on social citizenship rights across the UK The contributors contend that whilst territorial politics have always been major influences in the meaning and scope of social citizenship rights devolved politics are now increasingly producing different social citizenship rights in different parts of the UK Moreover they are doing it in ways that few scholars or policymakers expect or can trace Drawing on extensive research over the last 10 years the book brings together leading scholars of devolution and citizenship to chart the connection between the politics of devolution and the meaning of social citizenship in the UK The first part of the book connects the large and largely distinct literatures on citizenship devolution and the welfare state The empirical second part identifies the different issues that will shape the future territorial politics of citizenship in the UK intergovernmental relations and finance policy divergence bureaucratic politics public opinion and the European Union It will be welcomed by academics and students in social policy public policy citizenship studies politics and political science Notes on the United States Reports Walter Malins Rose, 1900 A brief chronological digest of all points determined in the decisions of the Supreme court with notes showing the influence following and present authority of each case as disclosed by the citations comprising all citing cases in that court the intermediate and inferior federal courts and the courts of last resort of all the states T p

Essays on the Devolution of Land Edward Douglas Armour, 1903 **The Devolution of Settled Land** Arthur Henry Cosway, 1927 Measuring Regional Authority Liesbet Hooghe, Gary Marks, Arjan H. Schakel, Sara Niedzwiecki, Sandra Chapman Osterkatz, Sarah Shair-Rosenfield, 2016 This is the first of five ambitious volumes theorizing the structure of governance above and below the central state This book is written for those interested in the character causes and consequences of governance within the state and for social scientists who take measurement seriously The book sets out a

measure of regional authority for 81 countries in North America Europe Latin America Asia and the Pacific from 1950 to 2010 Subnational authority is exercised by individual regions and this measure is the first that takes individual regions as the unit of analysis On the premise that transparency is a fundamental virtue in measurement the authors chart a new path in laying out their theoretical conceptual and scoring decisions before the reader The book also provides summaries of regional governance in 81 countries for scholars and students alike Transformations in Governance is a major new academic book series from Oxford University Press It is designed to accommodate the impressive growth of research in comparative politics international relations public policy federalism environmental and urban studies concerned with the dispersion of authority from central states up to supranational institutions down to subnational governments and side ways to public private networks It brings together work that significantly advances our understanding of the organization causes and consequences of multilevel and complex governance The series is selective containing annually a small number of books of exceptionally high quality by leading and emerging scholars The series targets mainly single authored or co authored work but it is pluralistic in terms of disciplinary specialization research design method and geographical scope Case studies as well as comparative studies historical as well as contemporary studies and studies with a national regional or international focus are all central to its aims Authors use qualitative quantitative formal modeling or mixed methods A trade mark of the books is that they combine scholarly rigour with readable prose and an attractive production style The series is edited by Liesbet Hooghe and Gary Marks of the University of North Carolina Chapel Hill and the VU Amsterdam and Walter Mattli of the University of Oxford

Devolution, Law Making and the Constitution Robert Hazell,Richard Rawlings,2005 Law making is a primary function of government and how well the three devolved UK legislatures exercise this function will be a crucial test of the whole devolution project This book provides the first systematic study and authoritative data to start that assessment It represents the fruits of a four year collaboration between top constitutional lawyers from Scotland Wales and Northern

Ireland and leading researchers in UCL's Constitution Unit. The book opens with detailed studies of law making in the period 1999-2004 in the Scottish Parliament and the Assemblies in Wales and Northern Ireland and how they interact with Westminster. Later contributions look at aspects of legislative partnership in the light of the UK's strongly asymmetric devolutionary development and also explain the unexpected impact of devolution on the courts. Individual chapters focus on various constitutional aspects of law making, examining the interplay of continuity and change in political and administrative practice and the competing pressures for convergence and divergence between the different parliaments and assemblies. This book is essential reading for academics and students in law and in politics and for anyone interested in the constitutional and legal aspects of UK devolution, not least the practitioners and policymakers in London, Edinburgh, Cardiff and Belfast.

Wales and Whitehall Great Britain: Parliament: House of Commons: Welsh Affairs Committee, 2010-03-26. The effective operation of devolution stands the best chance of success if both the UK and Welsh governments share knowledge and understanding, concludes the Welsh Affairs Committee in this report. The Committee makes a number of recommendations to improve the relationship between Wales and Whitehall. A broad review of how intergovernmental relationships are coordinated is required. The Joint Ministerial Committee should meet on a regular basis and ministers at all levels should be alert to the consequences of policy and legislation on devolved areas. The Cabinet Office should take lead responsibility for devolution strategy in Whitehall. Whitehall has lost a focus on the devolution settlement and too often has displayed poor knowledge and understanding of the specificities of the Welsh settlement. The Civil Service needs more consistent training and clear department by department focus on retaining devolution knowledge and understanding. The Welsh Assembly Government should have the confidence to interact with Whitehall and to promote areas of good practice. The Cabinet Secretary and the Permanent Secretary to the Welsh Assembly Government should give evidence annually to the Welsh Affairs Committee. Finally, reform of the Barnett Formula is required. The current financial settlement does not appear sustainable and a new arrangement needs to be built on an agreed and enduring basis which is demonstrably fair and sensitive to the particular circumstances of Wales.
