## **Diachronic Dialogues:**

*Diachronic Dialogues* Ahuvia Kahane, 2005-01-01 *Diachronic Dialogues* considers central aspects of Homer's poetry such as truth, knowledge, gender, virtue and the heroic code, authorship, memory and song, diction and formula. This book makes the case for performative rather than essential values in the *Iliad* and the *Odyssey*. *Diachronic Dialogues* Ahuvia Kahane, 2005-01-01 *Diachronic Dialogues* considers central aspects of Homer's poetry such as truth, knowledge, gender, virtue and the heroic code, authorship, memory and song, diction and formula. This book makes the case for performative rather than essential values in the *Iliad* and the *Odyssey*. *Dialogue Not Dogma* Raj Nadella, 2011-03-24 Nadella examines the strands of Luke's narrative showing that the many voices in the text should be celebrated as a unique feature of Luke's writing. Lukan scholars offer varying responses to the issue of divergent viewpoints in the gospel regarding the identity of Jesus, wealth, women and the emphasis on doing *vis a vis* hearing. Many forms of criticism attempt to explain or harmonize these apparent contradictions. Conversely, Raj Nadella argues that there is no dominant viewpoint in Luke and that the divergence in viewpoints is a unique literary feature to be celebrated rather than a problem to be solved. Nadella interprets selected Lukan passages in light of Bakhtinian concepts such as dialogism, loophole and exotopy to show that the disparate perspectives and interplay between them display Luke's superior literary skills rather than his inability to produce a coherent work. Luke emerges as a work akin to Dostoevsky's *Brothers Karamazov* that accommodates competing views on several issues and allows them to enter into an unfinalizable dialogue as equal partners. Formerly the *Journal for the Study of the New Testament Supplement*, this is a book series that explores the many aspects of New Testament study including historical perspectives, social, scientific and literary theory and theological, cultural and contextual approaches. *The Early Christianity in Context* series, a part of JSNTS, examines the birth and development of early Christianity up to the end of the third century CE. The series places Christianity in its social, cultural, political and economic context. *European Seminar on Christian Origins and Journal for the Study of the Historical Jesus Supplement* are also part of JSNTS. *Globalization, Cultural Identities, and Media Representations* Natascha Gentz, Stefan Kramer, 2012-02-01 *Globalization, Cultural Identities and Media Representations* provides a multidirectional approach for understanding the role of media in constructing cultural identities in a newly globalized media environment. The contributors cover a wide range of topics from different geopolitical areas, historical periods and media genres. Case studies examined include the shift from print to Internet, local representations of modern world cinema and global television, narrative strategies in transnational literature and cultural economics of the mediation of world music in India, China, Algeria, Israel, Europe and the United States. This case study approach allows for deeper insights into the complexity of each cultural subsystem as part of the whole media culture system. This book exemplifies a transcultural and transdisciplinary dialogue that maps out new, relocalized territories and borders for mediated cultural identities and also reveals the complexity and connectedness of all of these discourses. *Dialogue and Literature*

Michael Macovski, 1994-05-12 Extending and reframing the works of Bakhtin Gadamer Ong and Foucault with particular emphasis on Bakhtin's late essays Macovski constructs a theoretical model of literary dialogue and applies it to a range of Romantic texts In reconsidering specific works within the context of cultural heuristics rhetorical theory and literary history Macovski redefines Romantic discourse as both extratextual and agonistic He thereby re-evaluates such Romantic topics as the history of the autotelic self the proliferation of lyric orality and the nineteenth century critique of rhetoric He examines poetry by Wordsworth and Coleridge as well as such nineteenth century prose works as *Frankenstein* *Wuthering Heights* and *Heart of Darkness*

Diachronic Corpus Pragmatics Irma Taavitsainen, Andreas H. Jucker, Jukka Tuominen, 2014-03-15 Diachronic corpus pragmatics extends the pragmatic perspective to developments in the history of various languages and uses corpus linguistic methods to trace them The chapters in this volume focus on linguistic elements at several levels from individual words to phrases clauses and entire genres and discourse forms Using the most recent corpus tools the authors investigate correlations between forms functions and contexts in diachronic case studies that combine quantitative precision with close qualitative interpretation The articles deal with different languages including English Dutch Swedish Italian Spanish Finnish Estonian and Japanese bringing their research traditions in pragmatics and corpus linguistics in dialogue with each other This is the first time that such a wide range of languages has been brought together to showcase an exciting new field at the intersection of pragmatics historical linguistics and corpus methodology

**The Oral Palimpsest** Christos Tsagalis, 2008 Tsagalis argues that just as the discarded text of a palimpsest still carries traces of its previous writing so the Homeric tradition unfolds its awareness of alternate versions as it reveals signs of their erasure

*Gender and Literary Voice* Janet M. Todd, Janet Todd, 1980 Is literature androgynous Can a language used by men effectively express women's perceptions This book debates the presence of a distinctive female style voice or content in the literature written by women from the middle ages to the twentieth century Mary Wollstonecraft and Fanny Burney wrote on the linguistic difficulties of women's prose Virginia Woolf expressed hopes for an androgynous literary future The authors of *Gender and Literary Voice* consider thematic and stylistic differences and then range themselves on both sides of this debate The role of female experience the passive mode female appropriation of traditionally male forms of literature such as the bildungsroman semantic idiosyncrasies these are the elusive topics raised by contemporary critics of women's literature Among the contributors to this important volume of feminist criticism are Joyce Carol Oates Judith Wilt Marilyn Butler and Mary Ann Caws

**Metrical Constraint and the Interpretation of Style in the Tragic Trimeter** Nicholas Baechle, 2007-03-26 *Metrical Constraint and the Interpretation of Style in the Tragic Trimeter* is an interpretation of the choices the Greek tragedians made in regard to certain forms of standardized variations in word order and prosody Dr Nicholas Baechle demonstrates that in their compositional practice the tragedians collectively decided

to use certain prosodic variations to fit metrically intractable words and phrases This book is grounded in metrical constraint and the mechanics of trimeter composition but also extends to a greater understanding of the stylistic sensibilities of the tragedians and of their feeling for the generic ethos of tragic dialogue By means of comparisons with Aristophanes general practice and with paratragic imitations of tragic style the distinctiveness of the style of tragic dialogue versus the rendition of speech in comedy is made clear Metrical Constraint and the Interpretation of Style in the Tragic Trimeter offers a critical and sophisticated perspective on Greek drama that will appeal to anyone interested in language and classical studies Boston Studies in the Philosophy of Science, 1963 *The Dialogue of Love, Marriage and Maistrie in Chaucer's Canterbury Tales* Mari Pakkala-Weckström, 2005 *On Language* Roman Jakobson, 1990 One measure of Roman Jakobson's towering role in linguistics is that his work has defined the field itself Jakobson's contributions have now become a permanent part of American and European views on language With his uncanny ability to survive devastating uprooting again and again from Moscow to Prague to Upsalla to New York and finally to Cambridge Jakobson was able to bring to each milieu new and stimulating ideas which have broadened the perspective of linguistics while giving it new direction and specifying its domain Linda Waugh and Monique Monville-Burston have assembled an intellectual overview of his work in linguistics from partial and complete works that they have arranged introduced and cross referenced Some appear here in print for the first time others are newly translated into English More than a convenient access to Jakobson's basic works *On Language* presents a broad profile of the polymathic general linguist who suggested radical innovations in every area of linguistic theory The breadth of Jakobson's engagement in linguistics is captured by the editors' informative introduction and by their perspicacious presentation of topics His general view of the science of linguistics is followed by his stunning contributions to linguistic metatheory in the areas of structure and function Various aspects of historical typological and sociolinguistics are also explored along with his phonological theory perhaps his most influential contribution and his views on grammatical semantics A topic that increasingly preoccupied Jakobson in his later career the interrelationship between sound and meaning is presented here in detail The concluding three essays focus on the various relations between linguistics and the human and natural sciences which led Jakobson ultimately to be characterized as an interdisciplinary thinker **The World Of Biblical Literature** Robert Alter, 1992-03-17 A pioneer in the burgeoning movement to understand the Bible as literature assesses the state of new developments in this area Robert Alter reflects on the paradoxes inherent in considering this great religious work as literature This Vast Book of Nature Pavel Cenkl, 2006-09 This Vast Book of Nature is a careful engaging accessible and wide ranging account of the ways in which the White Mountains of northern New Hampshire and by implication other wild places have been written into being by different visitors residents and developers from the post Revolutionary era to the days of high tourism at the beginning of the twentieth century Drawing on tourist brochures travel accounts pictorial representations fiction and poetry local histories journals and newspapers Pavel Cenkl gauges how

Americans have arranged space for political and economic purposes and identified it as having value beyond the economic. Starting with an exploration of Jeremy Belknap's 1784 expedition to Mount Washington which Cenkler links to the origins of tourism in the White Mountains to the transformation of touristic and residential relationships to landscape. This *Vast Book of Nature* explores the ways competing visions of the landscape have transformed the White Mountains culturally and physically through settlement development and most recently preservation a process that continues today.

*Irony and Meaning in the Hebrew Bible* Carolyn J. Sharp, 2009. Was God being ironic in commanding Eve not to eat fruit from the tree of wisdom? Carolyn J. Sharp suggests that many stories in the Hebrew Scriptures may be ironically intended. Deftly interweaving literary theory and exegesis Sharp illuminates the power of the unspoken in a wide variety of texts from the Pentateuch the Prophets and the Writings. She argues that reading with irony in mind creates a charged and open rhetorical space in the texts that allows character narration and authorial voice to develop in unexpected ways. Main themes explored here include the ironizing of foreign rulers the prostitute as icon of the ironic gaze indeterminacy and dramatic irony in prophetic performance and irony in ancient Israel's wisdom traditions. Sharp devotes special attention to how irony destabilizes dominant ways in which the Bible is read today especially when it touches on questions of conflict gender and the Other.
