Diagnosing Organizations Michael I. Harrison, 2005 Professors of research methods across the social sciences will find *Diagnosing Organizations* Third Edition an invaluable text for their courses Jacket *Diagnosing Organizations* Michael Harrison, 1994-03-21 How can organizations handle the opportunities and threats posed by rapidly changing markets and external conditions How can they improve their overall effectiveness The Second Edition of this popular book contains up to date treatments of techniques and models for diagnosing how organizations deal with challenges like these The book also shows how consultants and applied researchers can help managers find ways to enhance organizational effectiveness Completely revised this edition presents the most recent techniques for gathering and analyzing diagnostic data covers models and methods for diagnosing organizational designs everyday practices fits among organizational components organizational politics and power relations and explores the ethical and political dilemmas of consulting and diagnosis The book retains its original coverage of the process of working with members of a client organization to plan and administer a diagnostic study and communicate its results It also continues to focus on group processes and the quality of working life

Books in Series, 1876-1949 R.R. Bowker Company, 1982 Ethnography David M. Fetterman, 1989-02 This textbook provides an up to date account of ethnographic research methods Using examples from many social science disciplines the author introduces paradigms used in ethnography field work equipment needed analysis of data differences and similarities between qualitative and quantitative approaches the nature of the environment of contemporary ethnographic research and writing the report Throughout the author provides insights into putting people at ease and research ethics he also includes a thorough introduction to microcomputer hardware and software useful in ethnographic studies

Standardized Survey Interviewing Floyd J. Fowler, Jr., Thomas W. Mangione, 1990 A practical guide to producing standardized and reliable interviews this volume represents a blending of social science theories of interviewing

dynamics the authors own extensive research on interview related error and research evidence from other prominent methodologists

Providing Useful Information for Deans and Department Chairs Mary K. Kinnick,1994 The major purpose of this volume of *New Directions for Institutional Research* is to increase the attention institutional researchers give to the information needs of deans and department chairs Higher education in the United States is in the midst of a major transformation This process will reshape and reposition in fundamental ways higher education s role in the society Deans and department chairs are pivotal change agents in this process To survive indeed to thrive postsecondary education institutions must become more learner centered and must redefine the nature and balance of valued faculty work Institutional researchers can provide useful information to deans and chairs that will help them to understand changing student needs to facilitate and assess student learning to assess and understand faculty culture and to redefine assign and assess faculty work This is the 84th issue of the quarterly journal *New Directions for Institutional Research* For more information on the series please see the Journals and Periodicals page

Analyzing Faculty Workload Jon F. Wergin,1994 The question being asked with increasing regularity is Just what do faculty members do Studies of faculty workload have been commissioned in state after state Taken together the studies indicate that college faculty members are working harder than ever but are probably teaching less and are almost certainly having less contact with students particularly undergraduates This volume of *New Directions for Institutional Research* explores how the public discourse about faculty work might be improved and suggests how colleges and universities might document that work in a fashion that not only more faithfully describes what faculty do but also allows for reports that are more comprehensive and useful This is the 83rd issue of the quarterly journal *New Directions for Institutional Research* For more information on the series please see the Journals and Periodicals page

Research in Health Care Settings Kathleen E. Grady,Barbara Strudler Wallston,1988-06 This is the first volume to focus on a substantive area of research rather than on a particular method It describes the whole process of research from setting up and conducting the project to interpreting and publishing results Much current research is cited in this very useful American volume *Journal of the Institute of Health Education* Veteran and neophyte researchers will find this book extremely valuable Kathleen E Grady and Barbara Strudler Wallston simplify potentially complex and boring material and can be used as a quick reference Combining an easily readable style breezy approach and technical insights makes *Research in Health Care Settings* an excellent contribution to the libraries of all social scientists Evaluation Practice An individual s behavior and lifestyle are critical factors for preventing and managing diseases Social scientists and health professionals are increasingly studying the behavior health link in the new areas of behavior medicine and health psychology *Research in Health Care Settings* is the first book to review social science research methods used in health care settings This important work speaks both to health care professionals conducting behavioral research and social scientists doing research in health care settings It provides social scientists with a better understanding of health settings and health care professionals with better training

in social science methodology This careful step by step guide to designing and carrying out a study in behavioral medicine is loaded with real life examples from health care settings It reflects the needs of interdisciplinary research projects not idealized research situations A useful guide for students of research methods in medical and allied health programs and for health professionals and social scientists studying the behavior health link **Telephone Survey Methods** Paul J. Lavrakas,1987-05-01 Lavrakas presents an applied approach to conducting telephone surveys He details a highly routinized process for planning and implementing telephone surveys that produces quality data Telephone Survey Methods focuses on sampling selection and supervision topics not covered in depth in existing texts It is ideal for organizations and agencies who want to conduct a survey and have little knowledge of where to begin and how to proceed **Subject Guide to Books in Print** ,1991 *Bibliography of Media Management and Economics* Rita M. Du Charme,1988 Ethics and Values in Applied Social Research Allan Kimmel,1989 With the primary objective of raising ethical sensibility this volume details the ethical problems and dilemmas faced by applied social science researchers Issues such as the use of deception the participant s right to privacy and informed consent and the potential harm of public disclosure are confronted The author discusses the need to review ethical problems and their implications in the context of current ethical standards in both society and the scientific community Case studies illustrate unanticipated ethical dilemmas which might emerge during a research project Issues are presented and interpreted clearly so that their complexity can be penetrated and potential solutions envisioned The volume also includes specific methodolo **On Time and Method** Janice Kelly,Joseph E. McGrath,1988-06 It is an excellent short introduction to issues of time suitable for advanced undergraduate or graduate research methods course focusing on experimental and quasi experimental designs An interesting introduction to the issues as seen by experimental social psychologists I d recommend the book to any sociologists struggling with time dependency issues Contemporary Sociology This slim volume is rich in ideas which can be employed to clarify implicit and explicit theorising about time in sociological research methods Similarly used creatively and imaginatively some of its considerations of experimental design and practice might be usefully transposed into the design and conduct of social surveys and field research The Journal of the British Sociological Association On Time and Method provides the first systematic detailed examination of the impact of time on research methods This original volume analyzes all the ways temporal factors can effect research results and interpretations and explains how research can be strengthened by paying attention to such factors This unique work first provides a theoretical base laying out the interplay of temporal issues on the strategic design and operational levels of research It then provides extended examples of the ways such factors operate in real world research and their consequences for such research programs It closes with a collection of proven techniques and approaches which researchers can use to remove reduce or compensate for temporal effects This cogent work provides valuable insights for all social scientists and is essential reading for students of research methods **Integrating Research** Harris M.

Cooper,1989-02 For anyone who does research this book offers an invaluable tool for learning the techniques of researching reviewing and analyzing research literature Applying basic tenets of sound data gathering to a comprehensive synthesis of past research on a topic Cooper leads the reader step by step through the five stage process integrating research reviewing from conceptualization of the research problem to the concise summary of the research review New to the second edition is coverage of computer literature searches the theoretical underpinnings of meta analysis the application of these procedures and new material on coding sheets
