Education of Grownups Naoko Saito, Paul Standish, 2012 What could it mean to speak of philosophy as the education of grownups This book takes Cavell's enigmatic phrase as a provocation to explore the themes of education that run throughout his work from his response to Wittgenstein Austin and ordinary language philosophy to his readings of Thoreau and of the moral perfectionism he identifies with Emerson to his discussions of literature and film Hilary Putnam has described Cavell as not only one of the most creative thinkers of today but as one of the few contemporary philosophers to explore philosophy as education Cavell's sustained examination of the nature of philosophy cannot be separated from his preoccupation with what it is to teach and to learn This is the first book to address the importance of education in Cavell's work and its essays are framed by two new pieces by Cavell himself Together these texts combine to show what it means to read Cavell and simultaneously what it means to read philosophically in itself a part of our education as grownups **Generate Deep**
