## Castoriadis Reader:

**The Castoriadis Reader** David Curtis, 1997-07-07 Cornelius Castoriadis is presently Director of Studies at the Ecole des Hautes Etudes en Sciences Sociales in Paris He is a philosopher social critic professional economist practicing psychoanalyst and one of Europe's foremost thinkers The Castoriadis Reader provides for the first time an overview of the author's work and encompasses every aspect of his thought *Workers of the World, Enjoy!* Kenneth H. Tucker, 2012-06-15 The aesthetic politics of social movements turn public life into a public stage where mutual displays of performance often trump rational debate and urban streets become sites of festivals and carnival In his penetrating new book *Workers of the World Enjoy* Kenneth Tucker provides a new model for understanding social change in our image saturated and aesthetically charged world As emotional and artistic images inform our perceptions and evaluation of politics art and performance often provide new and creative ways of understanding self and society Spanning the nineteenth twentieth and twenty first centuries *Workers of the World Enjoy* uses examples from major social movements that have dramatically changed the dominant capitalist society often in the name of labor Tucker investigates how class and culture develop as he raises questions about what it means for public life and social movements when politics and drama come together Tucker catalogues how aesthetic politics influences social movements from French Revolutionary syndicalism and fascism to the selling of the President and the street theater of the contemporary global justice movement He also discusses the work of political theorists including Jurgen Habermas Jeffrey Alexander and Nancy Fraser to critique the ways public sphere has been studied *From Agamben to Zizek* Jon Simons, 2010-09-10 In these 15 taster essays you will discover the key concepts and critical approaches of the theorists who have had the most significant impact on the humanities since 1990 [Lessons in Secular Criticism](#) Stathis Gourgouris, 2013-09-02 Secular criticism is a term invented by Edward Said to denote not a theory but a practice that counters the tendency of much modern thinking to reach for a transcendentalist comfort zone the very space philosophy wrested away from religion in the name of modernity Using this notion as a compass this book reconfigures recent secularism debates on an entirely different basis by showing 1 how the secular imagination is closely linked to society's radical poesis its capacity to imagine and create unprecedented forms of worldly existence and 2 how the space of the secular animates the desire for a radical democratic politics that overturns inherited modes of subjugation whether religious or secularist Gourgouris's point is to disrupt the co dependent relation between the religious and the secular hence his rejection of fashionable languages of postsecularism in order to engage in a double critique of heteronomous politics of all kinds For him secular criticism is a form of political being critical antifoundational disobedient anarchic yet not negative for negation's sake but creative of new forms of collective reflection interrogation and action that alter not only the current terrain of dominant politics but also the very self conceptualization of what it means to be human Written in a free and combative style and given both to close readings of texts and to gazing off into the broad horizon these essays cover a range

of issues historical and philosophical archaic and contemporary literary and political that ultimately converge in the significance of contemporary radical politics the assembly movements we have seen in various parts of the world in recent years The secular imagination demands a radical pedagogy and unlearning a great many established thought patterns Its most important dimension is not battling religion per se but dismantling theological politics of sovereignty in favor of radical conditions for social autonomy

**Thinking After Europe** Francesco Tava,Darian Meacham,2016-08-16 Jan Patocka perhaps more so than any other philosopher in the twentieth century managed to combine intense philosophical insight with a farsighted analysis of the idea and challenges facing Europe as a historical cultural and political signifier As a political dissident in communist Czechoslovakia he also became a moral and political inspiration to a generation of Czechs including V clav Havel He accomplished this in a time of intense political repression when not even the hint of a unified Europe seemed visible by showing in exemplary fashion how concrete thought can be without renouncing in any way its depth Europe as an idea and a political project is a central issue in contemporary political theory Patocka s political thought offers many original insights into questions surrounding the European project Here for the first time a group of leading scholars from different disciplines gathers together to discuss the specific political impact of Patocka s philosophy and its lasting significance
