footprint is a real rock with some type of imprint of a clove hoof print and two small prints of boots people been out to North Manchester church to look over the Rock with the Devils Footprint on it for years folklore Tales of Devils Footprint Some older folklore say the devils footprint on the stone was made cause a construction workerclimbed up on top of the rock and swore he d sell his soul to the devil if that rock could be moved The next day the rock had been moved and the construction worker had disappeared All that was left as evidence of the deal were some strange indentations in the rock Apparently that rock is now part of a cemetery wall and it is semi famed for holding the devil s footprint that was the day the Rock showed and featured there was a strange difference in the rock Two distinct markings had been placed on the face of the rock One in the clear shape of a cloven hoof and the other in the strange formation of two human size shoe footprints The markings are said to have been placed by the devil himself proof that the construction worker had indeed sold his soul in order to have the rock moved The stone can be seen clearly embedded within the wall of the nearby cemetery in North Manchester
