Economic Integration and Third World Development Pradip K. Ghosh, 1984-10-24 Although not previously well documented many instances of regional economic integration occur among Third World countries Joint industrial planning monetary integration trade expansion and investment planning are among the many facets of economic integration discussed in this volume Integration schemes most likely to contribute to development are difficult to achieve because ultimate success depends on the willingness and ability of the nations involved to negotiate conditions that contribute to the development of the region as a whole and that assure an acceptable distribution of benefits within the region The variety of theories and practical examples of regional integration plans detailed here document the complexity of integrated planning and the difficulties in achieving the desired results This work defines and explores the many factors necessary for understanding the difficulties involved in economic integration and cooperation among developing countries

Tourism and Culture Erve Chambers, 1997-07-24 Anthropologists and other social scientists have only recently undertaken systematic studies of modern tourism The need for such research is apparent given the fact that the travel and tourism industry has become one of the largest industries in the world Major cities entire countries and even some of the most seemingly remote places on the globe have become increasingly dependent on attracting tourists to their locales The transformations that are occurring as a result of tourism are not solely economic tourism can bring about profound cultural changes can have important consequences for a region s ethnic and historic identity and can produce significant social and political transformations to host communities Few human activities have such great potential as does tourism for exposing on a personal level the considerable inequalities that do exist between people particularly between people of different countries and different color Tourism and Culture provides detailed case studies that explore the complexity of modern tourism relationships The book challenges the often assumed primacy of the relationships between hosts and their guests arguing that virtually all forms of tourism are mediated by parties who stand outside of such immediate relationships Individual contributions to the book describe tourism developments in specific locales offering a variety of perspectives on both positive and negative human consequences of the industry Another unique feature of the book is its focus on applied anthropology with many of the contributors describing their direct involvement in the critical assessment or development of tourism activities in different parts of the world

The Dialectics of Ecology John Bellamy Foster, 2024-04-01 Explores ecological socialism's potential against capitalist environmental degradation Today the fate of the earth as a home for humanity is in question and yet contends John Bellamy Foster the reunification of humanity and the earth remains possible if we are prepared to make revolutionary changes As with his prior books *The Dialectics of Ecology* is grounded in the contention that we are now faced with a concrete choice between ecological socialism and capitalist exterminism and rooted in insights drawn from the classical historical materialist tradition In this latest work Foster explores the complex theoretical debates that have arisen historically with respect to the dialectics of nature and society He then goes on to examine the current contradictions associated with the confrontation between capitalist extractivism and the financialization of nature on the one hand and the radical challenges to these represented by emergent visions of ecological civilization and planned degrowth on the other The product of contemporary ecosocialist debates *The Dialectics of Ecology* builds on earlier works by Foster including *Marx's Ecology and The Return of Nature* aimed at the development of a dialectical naturalism and the formation of a path to sustainable human development

Health, Food, and Nutrition in Third World Development Pradip K. Ghosh, 1984-08-14 The development of effective health food and nutrition policies are essential to the rapid economic and social development of Third World countries The essays in this volume cover basic issues such as development of the food supply health care programs the human environment nutrition and malnutrition the politics of food scarcity and the impact of health and nutrition on the economy
