## About Popes:

**Interesting Facts About Popes** Eddie Alfaro,2021-02-07 The Roman Catholic Church is the largest of the three major branches of Christianity there is nearly one billion Roman Catholics in the world The leader of the church the pope is one of the most powerful men alive More than 260 people have held the office since the time of St Peter who is traditionally viewed as the first pope The pope has been a source of curiosity and fascination for 2 000 years *The Pope, the Public, and International Relations* Mariano P. Barbato,2020-06-30 This edited volume engages a long standing religious power the Holy See to discuss the impact of the structural and postsecular transformations of international relations through the emergence of a global and digital public sphere Despite the legal construction that enables the separation of the Holy See as a distinct legal entity it is also an instrument for the papacy to represent externally and regulate internally the global and transnational Catholic Church The Holy See is also the tool that enables the papacy to address a transnational or a global public beyond Catholic adherence most prominently through journeys that are often at the same time state visits and pastoral journeys Instead of understanding these hybrid roles as an irregular exemption the contributions of the book argue that the Holy See should be seen as a certainly special but nevertheless quite normal actor of international and public diplomacy *The American Pope* Pope Leo XIV Wayne C. Robinson,2025-05-21 The American Pope Pope Leo XIV and the Future of the Catholic Church By Wayne C Robinson For the first time in history the Vatican has elected a pope from the United States In a Church long rooted in European tradition the rise of Pope Leo XIV born Robert Francis Prevost in Chicago marks a groundbreaking shift in global Catholic leadership The American Pope takes readers deep inside this historic election and explores the life mission and spiritual philosophy of the man now guiding 1 3 billion Catholics worldwide From humble beginnings to missionary work in Latin America to his elevation as cardinal under Pope Francis Leo XIV s journey is as extraordinary as it is unexpected But what does his papacy mean for the future of the Church This gripping and deeply researched book reveals How popes are truly chosen from secret conclave to white smoke The personal story and pastoral vision of Pope Leo XIV The key challenges he faces including secularism scandal and global growth A full timeline of past popes and their countries of origin Why this moment may mark a turning point in Church history Whether you re a devout Catholic a curious historian or someone concerned with the role of faith in today s world The American Pope offers insight inspiration and a front row seat to history in the making **History of the Popes** Ludwig Freiherr von Pastor,1923 **The Next Pope** Edward Pentin,2020-07-07 When Pope Francis pontificate has passed it s very likely that one of the nineteen cardinals featured in these pages will be elected to become the next Supreme Pontiff of the Catholic Church **The history of the popes, from the close of the middle ages** Ludwig Pastor (freiherr von),1923 *The History of the Popes, from the Close of the Middle Ages* Ludwig Freiherr von Pastor,1908 **Fables Respecting the Popes in the Middle Ages** Johann Joseph Ignaz von Döllinger,1872 **Electing the Pope in Early Modern Italy, 1450-1700** Miles Pattenden,2017-07-14

Electing the Pope in Early Modern Italy 1450 1700 offers a radical reassessment of the history of early modern papacy constructed through the first major analytical treatment of papal elections in English Papal elections with their ceremonial pomp and high drama are compelling theatre but until now no one has analysed them on the basis of the problems they created for cardinals how were they to agree rules and enforce them How should they manage the interregnum How did they decide for whom to vote How was the new pope to assert himself over a group of men who until just moments before had been his equals and peers This study traces how the cardinals responses to these problems evolved over the period from Martin V s return to Rome in 1420 to Pius VI s departure from it in 1798 placing them in the context of the papacy s wider institutional developments Miles Pattenden argues not only that the elective nature of the papal office was crucial to how papal history unfolded but also that the cardinals of the fifteenth to eighteenth centuries present us with a unique case study for observing the approaches to decision making and problem solving within an elite political group
