idea that different groups and genders look upon the same natural features but perceive different meanings and potential in what they are seeing Through ten chapters various contributors showcase the ways in which native peoples see and interact with the natural world At the heart of this book is the idea that Europeans associated nature with the feminine and saw the natural world as a passive frontier to be dominated Native Americans however looked at landscape differently They saw nature as a place in which to engage in complex negotiations between spirits and humans This approach to nature cemented a relationship to the land based more on a partnership rather than subjugation These essays deepen our understanding of the interaction between native people and the land While other books focus on the gendered gaze of European men upon the landscape this collection emphasizes that native men and native women looked upon natural formations and constructed landscapes differently from one another a difference in perception that is important for archaeologists and anthropologists to understand While there have been advances toward admitting this more complex view in the rest of the world Native American Landscapes is the first to focus on how native men and women viewed the world around them Native American Landscapes is organized by region taking readers across the country from the rock shelters of the Cumberland Plateau in the east to the Mojave Desert and the Mexican Gulf Coast then north to what is now British Columbia and farther west to Hawaii Readers of this collection through a study of creation myths vision quests fertility shrines and other ritualized uses of landscape will learn more about the land and about humans perception of our natural surroundings which forms the bedrock of our present relationship with the natural world CHERYL CLAASSEN is professor of anthropology at Appalachian State University She is the author or editor of six books on Native American prehistory including Feasting with Shellfish in the Southern Ohio Valley Shells Rituals and Beliefs in Archaic North America and Women in Prehistory North America and Mesoamerica
