Beyond Science:

Beyond Science Standards Charles R. Ault Jr.,2021-11-15 *Beyond Science Standards* captures a vision of science education both whimsical and serious Ranging across examples from elementary to university level classrooms and grounded in philosophy and history the stories address dimensions beyond the realm of bureaucratic standards Its thesis brings into question the premise of scientific unity and its representation in school as notions of method process nature and practice Schools no less than the sciences profit from playful exploration of musical instruments in fourth grade physical science for example and hotel lobby decorative rock in a college geology course Aesthetic expression permeates geologic interpretation and evolutionary insight in depicting dentition for instance in the history of the horse family and linking this history to changing landscapes Participating in collecting local high altitude weather data enhances trust in climate science especially when the observations benefit the local farming community Allied with historical examples of the conduct of science *Beyond Science Standards* offers the reader inspiring stories of science teaching varying from place to place time to time discipline to discipline and purpose to purpose

Beyond Science in Historical Theory,2006

Spirituality Beyond Science and Religion William Pillow,Jack McMahan,2012-05 Spirituality means something different to everyone Some may believe it involves participating in organized religion Others may prefer it to be more personal like getting in touch with one s inner self through yoga meditation quiet reflection or even long walks A few may find that it lies in finding a new sense of purpose for their lives Spirituality Beyond Science and Religion addresses all of these and more through a new paradigm about life and death It lifts readers above their daily press for competitive survival and success by going to the heart of all spirituality The book disputes traditional science s claim that physical matter is the only reality It also helps explain enigmas that have confronted orthodox religion for centuries To do so this book correlates published research from nearly one hundred and fifty authors and professionals in medicine neuroscience psychology theology history and metaphysics It explores new insights being revealed through thousands of subjective experiences around the world all of them beyond the ability of science or religion to explain The book therefore not only offers reassurance that death is not final but it also discloses profound implications for how we live our lives on earth
