Alevi Identity:

Alevi Identity Tord Olsson, Elisabeth Ozdalga, Catharina Raudvere, 2005-09-30 In the rising momentum for new and reformulated cultural identities the Turkish Alevi have also emerged on the scene demanding due recognition In this process a number of dramatic events have served as important milestones the clashes between Sunni and Alevi in Kahramanmaraş in 1979 and Corum in 1980 the incendiarism in Sivas in 1992 and the riots in Istanbul Gaziosmanpaşa in 1995 Less evocative but in the long run more significant has been the rising interest in Alevi folklore and religious practices Questions have also arisen as to what this branch of Islamic heterodoxy represents in terms of old and new identities In this book these questions are addressed by some of the most prominent scholars in the field *Alevism as an Ethno-Religious Identity* Celia Jenkins, Suavi Aydın, Umit Cetin, 2019-10-23 Until recently the importance of religion in the modern world has often been underestimated in Western societies whereas its significance is absolutely crucial in the Middle East Religion is critical to a sense of belonging for communities and nations and can be a force for unity or division This is the case for the Alevis an ethnic and religious community that constitutes approximately 20% of the Turkish population its second largest religious group In the current crisis in the Middle East the heightened religious tensions between Sunnis Shias and Alawites raise questions about who the Alevis are and where they stand in this conflict With an ambiguous relationship to Islam historically Alevis have been treated as a suspect community in Turkey and recently whilst distinct from Alawites have sympathised with the Assad regime's secular orientation The chapters in this book analyse different aspects of Alevi identity in relation to religion politics culture education and national identity drawing on specialist research in the field The approach is interdisciplinary and contributes to wider debates concerning ethnicity religion migration and trans national identity within and across ethno religious boundaries The chapters in this book were originally published as a special issue of the National Identities journal **Alevis in Europe** Tözün İssa, 2016-07-22 The Alevis are a significant minority in Turkey and now also in the countries of Western Europe Over the past century many of them have migrated from rural enclaves on the Anatolian plateau to the great cities of Istanbul and Ankara and from there to the countries of the European Union This book asks who are they How do they construct their identities now and in the past in Turkey and in Europe A range of scholars writing from sociological historical socio psychological and political perspectives present analysis and research that shows the Alevi communities grouping and regrouping defining and redefining sometimes as an ethnic minority sometimes as religious groups sometimes around a political philosophy contingently responding to circumstances of the Turkish Republic's political position and to the immigration policies of Western Europe Contributors consider Alevi roots and cultural practices in their villages of origin the changes in identity following the migration to the gecekondu shanty towns surrounding the cities of Turkey the changes consequent on their second diaspora to Germany the UK Sweden and other European countries and the implications of European citizenship for their identity This collection offers a new and significant contribution to the study of

migration and minorities in the wider European context **The Alevis in Turkey and Europe** Elise Massicard,2012-10-12
This book examines the development of identity politics amongst the Alevis in Europe and Turkey which simultaneously provided the movement access to different resources and challenged its unity of action While some argue that Aleviness is a religious phenomenon and others claim it is a cultural or a political trend this book analyzes the various strategies of claim making and reconstructions of Aleviness as well as responses to the movement by various Turkish and German actors Drawing on intensive fieldwork Elise Massicard suggests that because of activists many different definitions of Aleviness the movement is in this sense an identity movement without an identity *Alevi Identity* Svenska forskningsinstitutet i Istanbul,1998 Alawites cultural religious and social perspectives Turkey's Alevi Enigma Paul J. White,Joost Jongerden,2021-08-04 This volume discusses how the multifaceted reality of Turkey s Alevis impinges on society and politics in contemporary Turkey The book provides readers with a vigorous discussion of the origins and history of the Alevis examines their ethnic identity and cultural representation as well as appraising their political life and the effect that this had on Turkey s polity the Turkish Left and the Kurdish National Movement and upon the emergence of civil society It analyses Alevi cultural manifestations and even looks at how Alevi diaspora communities in Europe effect Turkey in various ways The book therefore provides readers with a convenient handbook of an important group that is largely unknown in the West Turkey s Alevis Fundamentalism Marcello Mollica,2016 With the aim of shedding some light on the many ambiguities that contemporary dramatic events have brought to the fore this volume collects eight ethnographic contributions the product of fieldwork conducted in the last two years in geographical problem areas upon fundamentalism and transnationalism religiously driven deviations and challenges in data collection This book also provides a slightly different contribution from the dominant academic rhetoric with chapters that cut across established historical academic regions while intersecting anthropological and cultural areas thus deliberately connecting the Caucasus to the Eastern Mediterranean shores through the Anatolian peninsula and the northern Mesopotamia region Series Freiburg Studies in Social Anthropology Freiburger Sozialanthropologische Studien Vol 44 Subject Social Anthropology Ethnography The Kurds of Turkey Cuma Çiçek,2016-12-22 In fact Kurds in Turkey have many diverse political and ideological orientations Focusing on the elites of these informal groups national religious and economic Cuma Cicek analyses the consequences of the divisions and subsequent prospects of consensus building Using an innovative theoretical framework founded on constructivism the three I s model and various strands of sociology Cicek considers the dynamics that affect the Kurds in Turkey across issues as diverse as the central state geopolitics nationalism Europeanisation and globalisation In so doing he examines the consensus building process of 1999 2015 and presents the possible route to a unified Kurdish political state Cicek s in depth and meticulously researched work adds an indispensable layer of nuance to our conception of the Kurdish community This is an important book for students or researchers with an interest in the history and present of the Kurds and

their future in Turkey and across the Middle East Political Psychology of Turkish Political Behavior Cengiz Erisen, 2016-04-14 The primary motivation for this book is to focus on something crucial that is missing in Turkish political science well founded theories on the Turkish voter and empiricism in scholarly research Given the absence of such theories one could ask what then the best model is for explaining a Turkish citizen's vote choice and political behaviour and what schools of thought Turkish political science has Unfortunately it is not possible to offer a satisfactory response to either question at this point and among the clear deficiencies in the current literature the primary one is the lack of a robust model explaining how Turkish citizens form their political attitudes engage in political participation or cast their votes With these important questions in mind this book aims to generate an interest in the theoretical and methodological tools that one can employ to conduct research contributing to the needs of the literature particularly in political behaviour and political psychology This book expands our understanding about the processes and the mechanisms of Turkish political behaviour and contributes to the foundations of theory building in the literature This book was published as a special issue of Turkish Studies Alevis in Modern Turkey and the Diaspora Hege Markussen, Derya Ozkul, 2022-01-06 This book explores the struggles of a minority group Alevis for recognition and representation in Turkey and the diaspora It examines how they mobilise against state practices and claim their rights while at the same time negotiating how they define themselves The authors offer a conceptual framework to study minorities by looking at both structural and agency related factors in resisting state pressure and mobilising for their rights **Struggling for Recognition** Martin Sökefeld, 2008 As a religious and cultural minority in Turkey the Alevis have suffered a long history of persecution and discrimination In the late 1980s they started a movement for the recognition of Alevi identity in both Germany and Turkey Today they constitute a significant segment of Germany's Turkish immigrant population In a departure from the current debate on identity and diaspora Sökefeld offers a rich account of the emergence and institutionalization of the Alevi movement in Germany giving particular attention to its politics of recognition within Germany and in a transnational context The book deftly combines empirical findings with innovative theoretical arguments and addresses current questions of migration diaspora transnationalism and identity Religious Minorities in Kurdistan: Beyond the Mainstream Khanna Omarkhali, 2019-01-30 Religious Minorities in Kurdistan Beyond the Mainstream edited by Khanna Omarkhali represents an account of the various religious milieus flourishing beyond the Islamic mainstream in all parts of Kurdistan The miscellany describes how the religious minority groups operate within the Kurdish regions which themselves have been subject to numerous conflicts and social as well as political transformations at the turn of the 21st century This volume emphasizes recent developments affecting these communities in particular their social and religious lives Six chapters are dedicated to the Ahl e Haqq Yarisan Kaka is Yezidis Alevis the Haqqa and Khaksar Sufi traditions the Shabaks as well as to the Jewish and Christian communities in Kurdistan The anthology includes three indices and a glossary of religious terms appearing in the volume **Encyclopedia of**
