Algorithm Design for Networked Information Technology Systems Sumit Ghosh, 2007-05-08 I felt deeply honored when Professor Sumit Ghosh asked me to write the foreword to his book with an extraordinary perspective I have long admired him first as a student leader at Stanford where he initiated the first IEEE Computer Society's student chapter and later as an esteemed and inspiring friend whose transdisciplinary research broadened and enhanced the horizons of practitioners of computer science and engineering including my own His ideas which are derived from his profound vision deep critical thinking and personal intuition reach from information technology to bioscience as exhibited in this excellent book To me an ordinary engineer it opens up a panoramic view of the Universe of Knowledge that keeps expanding and spiraling like the good Indian proverb which says a good book informs you an excellent book teaches you and a great book changes you I sincerely believe that Professor Ghosh's book will help us change and advance the methods of systems engineering and technology Vision Inspired vision sees ahead of others what will or may come to be a vivid imagined concept or anticipation An inspired vision personifies what is good and what like minded individuals hope for Our vision is one of creating an Internet of minds where minds are Web sites or knowledge centers which create store and radiate knowledge through interaction with other minds connected by a universal shared network This vision will not just hasten the death of distance but will also incarcerate ignorance *American Book Publishing Record*, 2004 **The British National Bibliography** Arthur James Wells, 2004 **Measuring Technology and Mechatronics Automation IV** Zhi Xiang Hou, 2011-10-24 Selected peer reviewed papers from the Fourth International Conference on Measuring Technology and Mechatronics Automation ICMTMA 2012 January 6-7 2012 Sanya China IEEE/ACM/IFIP International Conference on Hardware/Software Codesign & System Synthesis, 2005 Archives Internationales de Photogrammetrie Et de Teledetection International Society for Photogrammetry and Remote Sensing.
