superficial at best and artificial at worst      A Guide to Detracking Math Courses Angela Torres, Ho Nguyen, Laura

Wentworth Streeter, Elizabeth Hull Barnes, Laura Wentworth, 2023-04-26 Create a pathway to equity by detracking

mathematics The tracked mathematics system has been operating in US schools for decades However research demonstrates

negative effects on subgroups of students by keeping them in a single math track thereby denying them access to rigorous

coursework needed for college and career readiness The journey to change this involves confronting some long standing

beliefs and structures in education When supported with the right structures instructional shifts coalition building and

educator training and support the detracking of mathematics courses can be a primary pathway to equity The ultimate goal is

to increase more students access to and achievement in higher levels of mathematics learning especially for students who are

historically marginalized Based on the stories and lessons learned from the San Francisco Unified School District educators

who have talked the talk and walked the walk this book provides a model for all those involved in taking on detracking efforts

from policymakers and school administrators to math coaches and teachers By sharing stories of real world examples lessons

learned and prompts to provoke discussion about your own context the book walks you through Designing and gaining

support for a policy of detracked math courses Implementing the policy through practical shifts in scheduling curriculum

professional development and coaching Supporting and improving the policy through continuous research monitoring and

maintenance This book offers the big ideas that help you in your own unique journey to advance equity in your school or

district s mathematics education and also provides practical information to help students in a detracked system thrive
