*The Return of the Raven Mocker* Donis Casey, 2017-01-03 Vividly rendered and psychologically astute this somewhat transparent puzzler provides an unusually immersive perspective on familiar historical territory. Booklist World War I is raging in Europe but as the deadly influenza pandemic of 1918 sweeps like a wildfire through Boynton, Oklahoma, Alafair Tucker is fighting her own war. Her daughter Alice and son-in-law Walter Kelley have both come down with the flu, and Alafair has moved into town to care for them after quarantining her young children at their sister's farm, Boynton, as a whole isolates itself like an old English plague village, discouraging anyone from coming into town and the residents from traveling outside. A new doctor applies science to treating the stricken, but Alafair applies all she knows about hygiene, nutrition, and old and trusted country remedies. Unable to aid her sons and son-in-law fighting overseas, this is danger she can combat. One autumn afternoon, screams coming from next door alert Alafair that Alice's neighbor Nola Thomason and her son Lewis have suddenly and unexpectedly succumbed. Yet there is something about the way the pair died that causes Alafair to suspect their deaths were due to poison rather than to influenza. The epidemic is so overwhelming that it is many days before the only doctor left in town can confirm Alafair's suspicions: neither Nola nor Lewis died of the flu. The only witness to their deaths, twelve-year-old Dorothy Thomason, a special friend of Alafair's daughter Sophronia, is so traumatized that she is rendered mute. Were Nola and her son murdered, and if so, why? The usual motives for murder are greed or jealousy or hatred. Or could it be, as Alafair fears, that the Raven Mocker, the most dreaded of the Cherokee wizards or witches, the evil spirit who takes to the air in a fiery shape to rob the old, the sick, and the dying of their lives, is hunting victims and bringing misery to the innocent?

*Barkskins* Annie Proulx, 2016 *Barkskins* opens in New France in the late 18th century as Rene Sel, an illiterate woodsman, makes his way from Northern France to the homeland to seek a living. Bound to a seigneur for three years in exchange for land, he suffers extraordinary hardship and violence, always in awe of the forest he is charged with clearing. In the course of this epic novel, Proulx tells the stories of Rene's children, grandchildren, and great grandchildren, as well as the descendants of his friends and foes as they travel back to Europe, to China, to New England, always in quest of a livelihood or fleeing stunningly brutal conditions: war, pestilence, Indian attacks, the revenge of rivals. Proulx's inimitable genius is her creation of characters who are so vivid in their greed, lust, vengefulness, or their simple compassion and hope that we follow them with fierce attention. This is Proulx's most ambitious novel ever and her master work. Negative Actions Jonathan D.

Payton, 2021-02-25 Negative actions like intentional omissions or refrainments seem to be genuine actions. The standard metaphysical theories of action are event-based; they treat actions as events of a special kind. However, it seems that many, and perhaps all, negative actions are not events but absences thereof. This is the first book-length treatment of the problem of negative action. It surveys the recent literature and shows how the problem is rooted in interconnected issues in metaphysics, the philosophy of action, and the philosophy of language. In particular, it connects competing views of the ontology of negative

actions to competing views of the semantics of negative action sentences and develops unique ontological and semantic theories to solve the problem It provides a comprehensive picture of the nature of negative actions our thought and talk about them and their place in a theory of action
