It highlights the major trends of the previous year, noting both renewed interest in multicultural perspectives and the ever-growing interest in online learning. It discusses advances in the school and library media worlds, which continue to reel from budget cuts and hiring freezes. It profiles two outstanding individuals: Michael Molenda, Associate Professor, Instructional Systems Technology, Indiana University, Bloomington, and Ron Oliver, Foundation Professor of Interactive Multimedia, Edith Cowan University, Perth, Western Australia. It also identifies instructional technology-related organizations and graduate programs in North America. The book concludes with a mediagraphy of journals, books, ERIC documents, journal articles, and nonprint resources.
