## **Earth Invaded:**

**Mission Earth Volume 1: The Invaders Plan** L. Ron Hubbard, 2003-06-15 Earth does not exist Or so they want you to believe Who are they What do they want And who do they think they are They are the Voltarians of Voltar an empire 110 planets strong They are already among us And the invasion is about to begin in a hundred years or so Or is it The truth is far more sinister Undercover underground and out of sight the invaders plan what may in fact be a massive diversion In the darkest recesses of Voltar s Coordinated Information Apparatus otherwise known as the CIA a tyrant of terror sets out to exploit the invasion in order to seize power All that stands in his way is a planet that doesn t exist Discover a world where corporations rule and political corruption is rife Where governments are driven by oil and controlled by drugs Where global warming is getting hotter by the minute and a scorching love affair could determine the fate of millions Where a cosmic conspiracy is about to hit home and the intergalactic intrigue knows no bounds They call it Blito P3 We call it Earth You can t afford to look the other way It s the end of the world as you know it and the beginning of one of the most spectacular thought provoking and wildly inventive works of science fiction and espionage of our time You will lose sleep You will miss appointments If you don t force yourself to set it down and talk to your family from time to time you may be looking for a new place to live Reading The Invaders Plan is simply the most fun you can have by yourself Orson Scott Card **1947: the Greys' Odyssey to Earth** Gus V., 2019-12-05 It is 2065 and a year has passed since the people of Earth formally established relations with several extraterrestrial races Appearances suggest that a new age of peace economic prosperity and enlightenment has begun One group of aliens in particular the Greys are an advanced and peaceful race Human journalist C A Wyatt is in the process of writing a book about the Greys odyssey from their home world planet Zeta to Earth and their crash landing near Roswell New Mexico in 1947 Their journey begins with the invasion of Zeta in 1944 by an aggressive alien species called Reptoids just as the Greys spaceship Zeta s Hope is about to be launched on an expedition to the uninhabited planet of Avalonia with fifty colonists made up of both Greys and their human like allies from planet Amigo As crew of the ship voyages to various planets they face a variety of problems both internal and external but eventually they set out to meet the humans of Earth hoping for form a new alliance But when those plans go awry the fates of the Greys and of humanity will change forever In this science fiction novel set in 2065 aliens known as Greys recall their journey to Earth in the 1940s through interviews with a human journalist **Earth. the Last Dream** Tony Spada, 2009-12-08 What you are about to read is an adventurous story a little like a fairy tale However it is a wish for an Earth better than the actual one a kind of teaching for the younger people in the hands of whom one day the destiny of our planet will be placed Andrew the main character of the book will be the chosen one he who will have to spread Love Liberty Happiness Harmony Peace Wisdom and Respect towards mankind and the environment This could seem imaginative but it is really not at all far from reality It is at the same time a distant and an imminent truth a truth almost totally and it seems deliberately ignored This is a book substantially for

the younger people but suitable for everyone because it is never too late to start to read books and to believe in the unknown  
But above all it is never too late to take a cue from reading and behave differently in everyday life
