**Environment** JoAnn Day,1994 **13 Guidelines for Effective Teams** Kaley Klemp,2011-07-25 Good communication is at the heart of every successful team 13 Guidelines for Effective Teams gives each individual within an organization the power to create the most reliable environment for effective communication Used by an entire team the stage is set for breakthrough creativity and top tier productivity Team facilitator Kaley Warner Klemp has compiled these powerful principles into a concise pocket manual making effective team communication accessible in virtually any work environment **Building Effective Lay Leadership Teams** George Barna,2001 *Organization and Management of Virtual Teams* Andreas Pfneisl,2014-05-08 Diploma Thesis from the year 2001 in the subject Computer Science Commercial Information Technology grade 1 Vienna University of Technology language English abstract The idea to write my master s thesis on Organization and Management of Virtual Teams arose during the 6th term of my studies which was an exceptional term in many ways I was part of several teams then which is nothing extraordinary I guess What made those teams special were the people I was working with or better I got the possibility to work with I had worked in teams before in the course of my studies and had had some really bad experience with lazy and unproductive people who simply couldn t or did not want to identify with tasks and goals of various projects What was so special with those teams in the summer term of 1999 was that most of the team members could identify with the goals set they worked they tried really hard to stick to deadlines and targets they took justified criticism as positive feedback they were punctual they communicated and so on in short I was part of some very very productive purposeful teams one of the results was that I did my most successful term that term the work of nearly two terms during this one Well two seminars during this spring were dealing with the topic Virtual teams and I got really interested in So I decided to do my master s thesis on this subject I found a nice and easy going supervisor who was interested in the topic as well and I started to write on the thesis at the end of my stay in Stockholm Sweden as an ERASMUS exchange student But why this topic why a thesis on virtual teams Several reasons should be mentioned My interest in the topic Since I am

studying Wirtschaftsinformatik Economical Computer Science a mixture between economics and computer science I am interested in both economics and technology What topic suits that combination better than Virtual Teams which have to work for economic reasons across distances and organizational borders all this with the help of the latest technology The challenge Not a lot was written about the subject Virtual Teams when I started to look for literature suitable for my thesis I hardly could find books in Sweden and the ones I finally chose I had to order from the US which is also a reason why this thesis is written in English because all the literature I used was written in English So it was quite a challenge but exciting to write about something new
