The Case of the Murderous Dr. Cream Dean Jobb,2021-06-01 Winner of the CrimeCon Clue Award for True Crime Book of
the Year When a doctor does go wrong he is the first of criminals Sherlock Holmes observed during one of his most puzzling
murder investigations Incredibly at the time the words of the world s most famous fictional detective appeared in print in the
Strand Magazine a real life Canadian doctor was stalking and murdering women in London s downtrodden Lambeth
neighbourhood Dr Thomas Neill Cream had been a suspect in the deaths of two women in Canada and had killed as many as
four people in Chicago before he arrived in London in 1891 and began using pills laced with strychnine to kill prostitutes The
Lambeth Poisoner as he was dubbed in the press became one of the most prolific serial killers in history In this fascinating
book Dean Jobb reveals how bungled investigations corrupt officials and failed prosecutions allowed Cream to evade
detection or freed him to kill again and again The first complete account of Dr Cream s crimes and his many victims explores
how the stifling morality and hypocrisy of the Victorian era allowed this monster to poison vulnerable and desperate women
many of whom had turned to him for medical help It offers an inside account of Scotland Yard s desperate search for a killer
