Documentary Studies:

Ten Years of Studies in Documentary Film Deane Williams, 2018-08-29 This volume will be a time capsule of the first 10 years of *Studies in Documentary Film* 2007-2016 tracing not only the development of the journal but also of documentary studies in the same period. Issues such as the rise of digital documentary forms and authorship, documentary activism and the Chinese Independent documentary as well as diverse political issues will be raised in the introduction and evidenced in the articles. The chapters have been chosen for the various themes they raise in documentary studies but also the broader field of documentary scholarship including publishing and the rise of the internet as a powerful force in documentary studies. [A Handbook for Teacher Research](#) Colin Lankshear, Michele Knobel, 2004-04-16 This informative book helped me to understand research in general and to bring focus and clarity to my current research project. The text answers questions and provides guidance and support in a manner that is user friendly and easy to comprehend. After reading this book I feel empowered as a teacher researcher and would unhesitatingly recommend it to other teacher researchers, graduate students and educators. Francesca Crowther, teacher and doctoral student, Nova Scotia, Canada. This book provides a comprehensive and detailed approach to teacher research as systematic, methodical and informed practice. It identifies five requirements for all kinds of research and provides clear and accessible guidelines for teachers to use in conducting their own classroom based studies. Features: A clear definition of teacher research which insists on more than stories and anecdotal retrospectives. Innovative organisational structure based on the collection and analysis of spoken, written and observed data with strong emphasis on the design of research projects. Easy to use and widely applicable tools and techniques for collecting and analysing data in qualitative research. Informed by the authors' own wide ranging experiences. *A Handbook of Teacher Research* provides everything the teacher researcher needs in order to conduct good quality practitioner research. It is ideal for upper level undergraduate Education programmes and for postgraduate research as well as for teacher researchers who conceive and drive their own independent studies. *Who We Are Now* Michelle Fishburne, 2023-01-19 Michelle Fishburne did the unthinkable during the early days of the COVID-19 pandemic: she motor-homed 12,000 miles all over the United States and sat down with hundreds of people face-to-face. People shared what their lives were like, what made them struggle and what surprised them. The personal histories in this book show a diversity of American lives: from the young college student who finds unexpected fame on TikTok to a special education teacher sharing the challenges of remote learning. Everyone's story is different. Some like Fishburne lost their jobs. Others lost family, friends and even their own health and well-being. And yet, among the difficulties, many found something that had eluded them before the pandemic. These testimonies offer a glimpse into what people across America lost and found during the pandemic's critical first year. Fishburne lets us hear people's stories as if we were there in real time at the beginning of COVID-19 when employment was uncertain, schools were online and American life more unpredictable than ever before. **A Short Introduction to Social Research** Matt Henn, Mark
