Classical Epic:

Classical Epic Tradition John Kevin Newman, 2003-04-01 The literary epic and critical theories about the epic tradition are traced from Aristotle and Callimachus through Apollonius Virgil and their successors such as Chaucer and Milton to Eisenstein Tolstoy and Thomas Mann Newman's revisionist critique will challenge all scholars students and general readers of the classics comparative literature and western literary traditions *A Companion to the Translation of Classical Epic*

Richard Armstrong, Alexandra Lianeri, 2025-04-01 The first volume of its kind to integrate trends in Translation Studies with Classical Reception Studies *A Companion to the Translation of Classical Epic* provides a comprehensive and wide ranging account of key debates and case studies centered the translation of Greek and Latin epics Rather than situating translation studies as a complementary field or an aspect of classical reception the Companion offers a systematic framework for adapting and incorporating translation studies fully into classical studies Its many chapters elaborate how translation is a central element in the epic's reception trajectories across the globe and addresses theoretical and methodological concerns arising from this conjunction The Companion does not just provide a comprehensive overview of the translation theories it covers but also offers fresh insights into theoretical and methodological issues currently at the top of the interdisciplinary agenda of scholars studying the global routes of ancient epic In its sections leading classicists translation theorists classical reception scholars and cultural historians from Europe and North and South America reconfigure questions this research faces today highlighting methods for an integrated approach It explores how this integrated perspective responds to key challenges in the study of the epic's reception emphasizing topics of temporality gender agency community target language politics and material production A special section also features detailed dialogues with active translators such as Emily Wilson Stanley Lombardo and Susanna Braund who speak extensively and frankly about their work This is a key volume for all students and scholars who want to engage with research reflecting the contemporary agenda in classical reception translation studies and the study of epic in its global literary and cultural routes *Film and the Classical Epic Tradition*

Joanna Paul, 2013-02-28 Paul explores the relationship between films set in the ancient world and the classical epic tradition arguing that there is a connection between the genres Through this careful consideration of how epic manifests itself through different periods and cultures we learn how cinema makes a claim to be a modern vehicle for a very ancient tradition

Classical Epic Richard Jenkyns, 1992 In the ancient world Homer was recognised as the fountainhead of culture His poems the Iliad and the Odyssey were universally admired as examples of great literature which could never be surpassed In this study Richard Jenkyns re-examines the two Homeric epics and the work that is perhaps their closest rival the Aeneid of Virgil A wide range of topics is covered including chapters on heroism and tragedy in the Iliad morality in the Odyssey and Virgil's skilful reworking of elements from the two earlier epics Essential reading for those who are unfamiliar with the works of Homer and Virgil the author's lively and provocative approach will also appeal to more experienced scholars of classical
