Gerard Gertoux,2016-02-27 Despite the fact that the name of many characters mentioned in the Old Testament like David
King of Israel have been recently confirmed by archaeology as well as their epoch and the events in which they were involved
most archaeologists continue to deny the historicity of the Bible they view as pious fiction or a mythical account They argue
that the major events in the Bible such as the victory of Abraham against Chedorlaomer an unknown king of Elam around
2000 BCE the victory of Moses against an unknown Pharaoh around 1500 BCE or the victory of Esther an unknown Persian
Queen against an unknown vizier of Xerxes never existed because they left absolutely no evidence They also explain that
according to what we know today these events could not have occurred These logical arguments are impressive but a precise
chronological analysis based on absolute dates coupled with a rigorous historical investigation shows that all those major
events really took place at the dates and places indicated *Frozen Food Locker Plants* Paul Coffman Wilkins,Lorenzo
