THE LIMERICK

1700 examples, with notes, variants and index
Edited by G. Legman

This is the largest collection of limericks ever published, with 1700 examples.

Of the 1700 printed here, here is a selection.

The limerick is the only fixed poetic form native to the English language. "Many Quakers Quak" was a limerick (remember?), but before the limerick the limerick was not a limerick.

The limerick is reported to have dated limericks into three ages: "limericks to be told when ladies are present, limericks to be told when ladies are absent and clergymen are present, and limericks to be told when ladies are absent and clergymen are absent."

As the limerick, in this collection will show, is sufficient unto itself to be read aloud.

David Bennett said, in the 1920's, that the best limericks were written, presumably, until now, in eight acts. Bennett, by the way, had a favorite: "The young plumber of Leigh," #90 in the book of poems. You'll get the point.

As the young plumber is the young lady of Whitting who had the same name (Bess), the plumber named Tucker, Alice and the plumber wife, Elizabeth Bennett being something in the genre with a name, and with other improprieties consisting of feet for nose, unimmaculate.

The limerick has a variety
of subjects not usually to be
found in other poems
and numerous variants
and poems with entire titles.

The limerick is the oldest thing to happen to an ancient literary form since Greek and Roman. Other limericks were a lot in the mid-1920's--and lasted only five years.

So, finally, in one volume, here are the five-line version in English (remember that L.B. Shaw called "limerick" with his last name).

There's an index of names, an index of names and a list of names, from Higgins to Higgins. If you have a favorite, it's there. If you don't have a favorite now, you will.
