Particle or Wave?** Jan Edvin Andersen,2023-05-31 This book is the second in a brand new revealing series of the new and fully proven 5 dimensional quantum physical universe The big bang physics and philosophy are now completely disproved by the particle accelerator in the absence of alleged particles The universe has now been proven by scientists and by the particle accelerator down there in Cern This evidence points only in one direction towards a universe consisting only of energetic oscillating fields and a most strange matter and absolutely no form of physical particles This book is a sequel to *Rediscovering the Fifth Dimension* These two books will explain you the entire new 5 dimensional quantum physical universe consisting only of energetic oscillating fields and a very wondrous substance Together it adds up absolutely everything that we can see discover and detect The very active universal engine room the place where absolutely everything of physical actions unfolds consists of 5 very active dimensions Outside there is what you might call quiet Only the deep mysteries of quantum physics can give you the answer to the remaining dimensions besides All of the active physical actions that only take place in the very active engine room are quantum physical actions It is only these 5 quantum physical dimensions that are actually the active universal engine room and it is only the two outers of these 5 dimensions that are the driving force of the 5 dimensional very active quantum physical universe The two most exciting

dimensions in the active engine room are the 5th and the 4th dimensions Therein we find just the right quantum physics and these two books will convince you of that They just need to be read and understood The books will explain to you about the real creation of the universe and will explain to you the real inflation and how it develops The new expansion law will be explained something that drives inflation and expansion in the universe Universal gravity is explained in the first and fundamental book along with how gravity creates and powers this quantum physical universe You will be explained how and what atoms basically are along with the Higgs fields The Higgs fields are very special Because the matter is very special in this quantum physical universe in which there are no forms of 100% physical particles whatsoever A totally particle less universe with only energetic oscillating fields and the matter from all the Higgs fields **Year Book** Chaddock College (Quincy, Ill.),1893 **Rediscovering the Fifth dimension** Jan Edvin Andersen,2023-05-31 This brand new universal model and physics was first published in book form September 26th 2015 Remember the important date This book is a brand new textbook in a brand new basic 5 dimensional quantum physics and is written for future physicists and researchers This new model is a full visualization of all these extra undetectable quantum physical dimensions Rediscovering the fifth dimension is a brand new 5 dimensional quantum physics model that builds up the entire universe only on energetic oscillating fields and a very special universal substance This substance is actually the difference between whether something can be seen discovered detected or not This universal substance was fully proven by Carl David Anderson as early as the 1930s This semi physical substance is produced only by the Higgs field That is the only reason they were able to discover this Higgs field as the absolute only possible field they could detect in the particle accelerator They found absolutely no physical particles Remember this This is very important if you want to understand the universe as it really appears This new quantum physical hologram model s atoms are only these 4 dimensional oscillating energetic fields which are actually fully proven by the particle accelerator in 2016 As a result 99% of the universe actually consists of an undetectable quantum physics side and 1% is this strange substance This is where reality comes to the surface and becomes fully visible in the highly active 5 dimensional quantum physical universal engine room The fact that something is visible and detectable is only due to the substance This new model reveals Tesla technology and stealth technology and points out the very reason why the UFO s can disappear from today s high tech radars The reason why the UFO can disappear from radar is that there are no physical particles left in the UFO only the atom This substance can disappear again completely controlled also the stealth effect occurs in the UFO The particle accelerator s final and very clear evidence just says that there can be no physical particles and that it actually proves that there has never been a big bang Still today is this fake big bang universe only researched and taught Why Is it only because scientists don t understand the right universe that the particle accelerator actually proved to them should be there The energetic oscillating field universe Rediscovering the Two Quantum Dimensions, the 5th and the 4th dimension! J.E. Andersen,2021-07-05 Late in 2016 the scientists with a little help from the big LHC the particle

accelerator down in Cern finally concluded that there are no physical particles to be found inside this universe Meaning only energetic oscillating fields was to be found Can you even grasp that thought that everything in this universe is absolutely anything but being this postulated 3 dimensionally and fully physical universe that you thought you could understand and that you have been educated in Everything you believed this universe to be does not exist at all You don t find anything inside this universe that is only 3 dimensional and only fully physical And everything you did not believe in is the universe we actually live inside with only energetic oscillating fields We live inside a paranormal universe with 5 very active quantum physical dimensions It is actually these two quantum physical dimensions the 5th and the 4th that really runs the show We can only see discover and detect this universe inside the 3rd dimension and that dimension is the quantum physical screen of the universe This is where the Higgs field is operating with the funny universal stuff a stuff that can be there disappear and reappear again That leads us into the stealth technology and the physics behind the famous stealth plane the new 5 dimensional quantum physics The only kind of believes and the only kind of education today lies inside this 3 dimensional and fully physical standardized big bang model and physics and all of that is a big lie That was the final conclusion from the big LHC down in Cern This very famous and shocking discovery actually proved my new 5 dimensional model by proving the energetic oscillating quantum physical atom that lies in a 5 dimensional spacetime My new 5 dimensional quantum physical model and totally new physics was theoretically fully proven already in 2012 Then the big process writing down all of this new philosophy and theory Out of that came the new 5 dimensional quantum physical physics Very different on any level This new model matches Einstein s extended relativity theory and can be understood as a Pier Review with Einstein s 5 dimensional model It explains the gravity the differentiated expansion explains the very big inflation and many more hidden secrets of the universe Read about the Author and the book and understand how this universe was created and how it functions
