Reality, 1928 *Journals of the House of Commons of the Dominion of Canada* Canada. Parliament. House of Commons, 1894 **Law, Narrative and Reality** G.C. van Roermund, 2013-03-09 This book is at odds with the presuppositions behind a received view on law as a systematic solution to social problems in the name of justice It argues that neither do facts in law represent social reality nor do norms represent a moral ideal Representationalism as such in its various legal guises is put to the test of what is called here the interception hypothesis Although it is derived from the theory of literature the theory of narrative and corroborated by several close reading analyses of legal texts both decisions and statutory rules this hypothesis aims in the first part at providing an alternative model for the structure and the value of legal knowledge The second part shows how this knowledge is operative in fundamental concepts like democracy punishment and contractual obligation Journal ... Touching the Jaguar John Perkins, 2020-06-16 This eloquent book inspires us to create a new reality of what it means to be humans on this magnificent planet Deepak Chopra This all happened while Perkins was a Peace Corps volunteer Then he became an economic hit man EHM convincing developing countries to build huge projects that put them perpetually in debt to the World Bank and other US controlled institutions Although he d learned in business school that this was the best model for economic development he came to understand it as a new form of colonialism When he later returned to the Amazon he saw the destructive impact of his work But a much more profound experience emerged Perkins was inspired by a previously uncontacted Amazon tribe that touched its jaguar by uniting with age old enemies to defend its territory against invading oil and mining companies For the first time Perkins details how shamanism converted him from an EHM to a crusader for transforming a failing Death Economy exploiting resources that are declining at accelerating rates into a Life Economy cleaning up pollution recycling and developing green technologies He discusses the power our perceptions have for molding reality And he provides a strategy for each of us to change our lives and defend our territory the earth against current destructive policies and systems *Journals* Canada.
