Bride Of The Tower

AN Whitehead

Bride Of The Tower:

BRIDE OF THE TOWER Sharon Schulze, Akemi Maki, 2018-06-27 Julianna has been dressing in men's clothing to protect Tuck's Tower ever since the death of her father. The elegant dress her late mother made for her sits unused. Washing herself with fragrant soap is the only ladylike luxury she enjoys. One night she is alerted to an emergency in the forest where she finds a seriously wounded man. She takes the unconscious man to the tower. When the man awakes revealing his blue eyes Julianna falls for him in an instant. What a handsome man he is and what a bind she's in. St. Bride's Church London Gustav Milne, 2014-06-30 One of the first English attempts to mount the total research excavation of an urban parish church at blitz damaged St Bride's in Fleet Street in the City of London is recorded in this report. St Bride's foundation date is earlier than indicated by surviving documentary records and highlights the complexity of its subsequent development. Moreover it demonstrates how archaeology can significantly extend the history of such a relatively well documented building. Professor Grimes died before completing his definitive report. This report is as an attempt to make good that omission. It is an assessment of the surviving field records and a re-evaluation of 1950s finds together with an account of building recording at St Bride's in 1992-3 conducted by a team from University College London. These excavations prove to be of more than local significance to medieval archaeologists. It was on the site of St Bride's that the concept of a parish church's research excavation was first evolved after the rubble from dozens of churches bombed during the Second World War were usually carted away with little or no thought for archaeological recording. Among many problems faced were the logistics of opening up a large internal area and exposing large groups of burials. Evidence was found not only at foundation level in the ground but also in the standing fabric of the medieval building elements of which survive in the present standing building. Detailed study of the finds recovered in 1952-4 also proved rewarding and reports on the pottery, moulded stones, tiles, grave covers, glass and coins are included.
