One Book, The Whole Universe Richard D. Mohr, 2010-05-05 The much anticipated anthology on Plato's *Timaeus*, Plato's singular dialogue on the creation of the universe, the nature of the physical world, and the place of persons in the cosmos, examining all dimensions of one of the most important books in Western Civilization: its philosophy, cosmology, science, and ethics; its literary aspects and reception. Contributions come from leading scholars in their respective fields, including Sir Anthony Leggett, 2003 Nobel Laureate for Physics. Parts of or earlier versions of these papers were first presented at the *Timaeus* Conference held at the University of Illinois at Urbana-Champaign in September of 2007. To this day, Plato's *Timaeus* grounds the form of ethical and political thinking called Natural Law, the view that there are norms in nature that provide the patterns for our actions and ground the objectivity of human values. Beyond the intellectual content of the dialogue's core, its literary frame is also the source of the myth of Atlantis, giving the West the concept of the lost world.

Predestination Andrew David Naselli, 2023-11-06 A concise and systematic exploration of the doctrine of predestination. How can God choose to save some and eternally punish others? What about my loved ones who are not believers? For many, contemplating predestination brings about fear, trepidation, controversy, and emotional exhaustion, making it a difficult topic to study. Let alone view as a blessing. This addition to the Short Studies in Systematic Theology series carefully examines God's word to answer 15 commonly asked questions regarding the doctrines of election and reprobation. With helpful visuals, key definitions, answer summaries, and prayer responses, this concise guide is perfect for all believers who want to discover and delight in what God has revealed throughout Scripture. Readers will not only learn how God saves his people from their sins but will be stirred to respond to him in worship. Great for theologians, pastors, and students. Designed to be short and approachable, this concise study dives deep into the doctrine of predestination. Part of the Short Studies in Systematic Theology Series. Other titles include *The Person of Christ: Glorification and the Doctrine of Scripture*, written by Andrew David Naselli, pastor and professor of systematic theology and New Testament.

Feeling Psychologically Treated, and Prolegomena to Psychology Denton Jaques Snider, 1905 **Basil of Caesarea, Gregory of Nyssa, and the Transformation of Divine Simplicity** Andrew Radde-Gallwitz, 2009-10-01 Divine simplicity is the idea that as the ultimate principle of the universe, God must be a non-composite unity, not made up of parts or diverse attributes. The idea was appropriated by early Christian theologians from

non Christian philosophy and played a pivotal role in the development of Christian thought Andrew Radde Gallwitz charts the progress of the idea of divine simplicity from the second through the fourth centuries with particular attention to Basil of Caesarea and Gregory of Nyssa two of the most subtle writers on this topic both instrumental in the construction of the Trinitarian doctrine proclaimed as orthodox at the Council of Constantinople in 381 He demonstrates that divine simplicity was not a philosophical appendage awkwardly attached to the early Christian doctrine of God but a notion that enabled Christians to articulate the consistency of God as portrayed in their scriptures Basil and Gregory offered a unique construal of simplicity in responding to their principal doctrinal opponent Eunomius of Cyzicus Challenging accepted interpretations of the Cappadocian brothers and the standard account of divine simplicity in recent philosophical literature Radde Gallwitz argues that Basil and Gregory s achievement in transforming ideas inherited from the non Christian philosophy of their time has an ongoing relevance for Christian theological epistemology today *History of the Development of the Doctrine of the Person of Christ* Isaak August Dorner, Issac August Dorner, 1889 *The Meaning of Religion* F.
