## **Annihilating Difference:**

*Annihilating Difference* Alexander Laban Hinton, 2002-08-15 Genocide is one of the most pressing issues that confronts us today Its death toll is staggering over one hundred million dead Because of their intimate experience in the communities where genocide takes place anthropologists are uniquely positioned to explain how and why this mass annihilation occurs and the types of devastation genocide causes This ground breaking book the first collection of original essays on genocide to be published in anthropology explores a wide range of cases including Nazi Germany Cambodia Guatemala Rwanda and Bosnia

**Handbook of Transnational Crime and Justice** Philip Reichel, Jay Albanese, 2013-04-29 Transnational crime and justice will characterize the 21st century in same way that traditional street crimes dominated the 20th century In the Handbook of Transnational Crime and Justice Philip Reichel and Jay Albanese bring together top scholars from around the world to offer perspectives on the laws crimes and criminal justice responses to transnational crime This concise reader friendly handbook is organized logically around four major themes the problem of transnational crime analysis of specific transnational crimes approaches to its control and regional geographical analyses Each comprehensive chapter is designed to be explored as a stand alone topic making this handbook an important textbook and reference tool for students and practitioners alike

**Never Meant to Survive** João H. Costa Vargas, 2023-06-14 Never Meant to Survive presents a historical political and social assessment of anti black genocide and liberatory struggles that arose to resist it Based on fine grained accounts of community life at the street level Costa Vargas s work presents crucial examples of political resistance and community activism By examining two cities linked by common experiences of Blackness Los Angeles and Rio de Janeiro this book identifies a prevailing genocidal force that organizes individuals and groups across society The 1965 and 1992 riots in Los Angeles the work of the Black Panther Party and favela activists in Brazil and police brutality in struggles between black communities and the state in both L A and Rio de Janeiro all figure importantly in Costa Vargas s compelling account What emerges from this analysis is a call for the destruction of the conditions that foster the marginalization of black communities and a halt to the internal conflicts between black social groups themselves

Proclivity to Genocide Grace O. Okoye, 2014-08-20 This book examines proclivity to genocide in the protracted killings that have continued for decades in the northern Nigeria ethno religious conflict spanning from the 1966 northern Nigeria massacres of thousands of Ibos up to the present ongoing killings between extremist Muslims and Christians or non Muslims in the region It explores the ethnic and religious dimensions of the conflict over five phases to investigate genocidal proclivity to the killings and the extent to which religion foments and escalates the conflict This book adopts a conceptual analytic approach of establishing similarity of genocidal patterns to the northern Nigeria ethno religious conflict by examining genocidal occurrences and massacres in history particularly the twentieth century contemporary genocides for an understanding of genocide With this reference frame the study structures a Genocide Proclivity Model for identifying inclinations to genocide and derives a substantive

theory using the Strauss and Corbin 1990 approach By identifying genocidal intent as underlying the various manifestations and causes of genocide in specific genocide cases the book establishes that genocidal proclivity or the intent to exterminate the other on the basis of religion and or ethnicity underlies most of the northern Nigerian episodic but protracted killings The book s analytic framework and approach are grounded in identifiable and provable evidences of specific intent to annihilate the other mostly involving extremist Muslims intent to cleanse northern Nigeria of Christians and other non Muslims through the exclusionary ideology of imposition of the Sharia Law and to force assimilation or extermination through massacres and genocidal killings of those who refuse to assimilate or adopt the Muslim ideology The study establishes that the genocidal inclinations to the conflict have remained latent because of the intermittent but protracted nature of the killings and lends credence to the conception of genocidal intent and its covertness in situations of genocidal intermittency The book unearths the latency of episodic genocide in the northern Nigeria ethno religious conflict prescribes recommendations and launches a clarion call for international intervention to stop the genocide

**Politics and Racism Beyond Nations** J. P.

Linstroth,2022-01-18 This book brings together theoretical knowledge from diverse fields as anthropology biology neurology peace studies political science psychology and sociology to address key challenges that transcend borders It demonstrates how differences are created on many levels to reveal how the othering project is evident through national policies of immigration through aspiring nationalisms through genocidal inhumanity and the subsequent effects of such othering evident in racial trauma It further argues that we cannot limit our understanding of racism to forms of white nationalism or whiteness movements in the developed world and regions but look to the global formulation of such discrimination in colonial histories The book introduces each chapter by providing rich ethnographic narratives from informants based upon the author s research on nationalism racism genocide terrorism trauma scientific tolerance and love and peace as well as some auto ethnographic narratives from the author s research on these themes
