## **Climbing Tree:**

**The Climbing Tree** Dolores Richardson,2012-07 A resilient girl in Georgia grows to be a promising young adult despite a series of painful obstacles throughout her life      [The Climbing Tree](#) Barbara Leary,2019-10 A story about noticing the natural world around us finding our place in it and sharing it with others Its themes are persistence imagination inclusion and friendship 24 color illustrations      **The Masters' Secrets of Bowhunting Deer** John E. Phillips,1993-05      **The Climbing Tree** John Stith,2019-11-12 The Climbing Tree is an eloquent poetic fable with a timeless message about growing up sibling rivalry and the love between brothers Little Brother wants to follow Big Brother up the branches of the Climbing Tree but Mom tells him he has to wait until he is older When he is finally big enough to go up Little Brother makes a difficult discovery no matter how high he climbs Big Brother will always be a branch ahead In their make believe world within the tree the brothers grow and transform into majestic birds mountains and even celestial bodies yet Little Brother still can't help but feel less when compared to Big Brother Will the two ever be able to share the same space      **The Life Space of the Urban Child** Gunter Mey,2017-09-08 The heart of this book is the translation of The Life Space of the Urban Child written in 1935 by Martha and Hans Heinrich Muchow Life Space provides a fresh look at children as actors and how they absorb their city environments It uses an empirical base connected with theories about the worlds in which children live The first section provides historical background on Muchow's study and the author The second section presents the translation of the Life Space study as well as comments from an environmental psychologist's perspective The third section reviews the study's theoretical foundations including the concept of critical personalism the perspectives of phenomenology and the notion of Umwelt environment The last section addresses various lines of research developed from the Life Space study including Muchow's work in describing children in urban environments methodological approaches and the significance of space in social science and educational contexts The manner in which Martha Muchow conducted her studies is itself of note She obtained access to the children in their environments and combined observation with cartographies and essays produced by the children This approach was new at the time and continues to inspire researchers today This volume is the latest work in Transaction's History and Theory of Psychology series      **Trees and the Human Spirit** Ruth Wilson,2019-01-08 This volume presents a treatise on trees and how they relate to the human spirit Through its in depth discussion of the meaning of trees a need for a shift in thinking becomes clear Historically people in dominant cultures have viewed trees as resources to be used and forests as obstacles to such endeavors as farming and ranching This publication presents a different view of trees and forests one calling for a shift from domination and irreverence to respect and care even kinship While the text includes a discussion about some of the amazing characteristics of trees the primary focus here is on the philosophical meaning of and emotional connections with trees Its integration of disciplines and the recognition of different ways of knowing will make this book appealing to a wide variety of readers      **Official Gazette of the United States Patent and**
