

## L14 REFLECTION

lease take a few minutes to reflect on your experience in CSE 111 and think about the challenges, successes, and all that you've learned along the way. Now, please respond thoroughly (1 - 2 paragraphs for each question) to the following questions.

- 1. Describe an experience you had this semester where you saw the power of functions.** I think that when writing the code for the house that we needed to display in python, I think that if it wasn't for functions; this would have taken longer than it did and it really felt like it was easier.
- 2. In your judgment, what is the value of test functions?** I think test functions are very important because it helps us to know if our coding is working as expected. I think this is helpful not only to make sure that our functions are running properly but also saves us time and help us be more effective.
- 3. Describe your process for troubleshooting and fixing a program that has a problem. What is one thing you can do to improve your process?** The process for troubleshooting; the first thing is to be able to identify the problem; establish the why of the problem, a theory per says. Test our theory to determine the why and plan and implement a solution; and then make sure that the rest of it is working properly after our solution is been done. I think that something that I will like to do to improve the process is maybe have a specific place to have more answers to different situations.
