**Cognitive Processes in Comprehension** Marcel A. Just, 2013-11-26 First published in 1978 Cognitive Processes in Comprehension is a look at what goes on in the mind of the listener or reader when he hears a sentence during a conversation or reads a passage in a book For most adults comprehension is rapid automatic and effortless But despite its apparent simplicity comprehension includes a myriad of subprocesses each of which by itself constitutes a formidable computational task [Encyclopedia of Applied Psychology](#) Charles Spielberger, 2004-09-02 Encompasses topics including aging geropsychology assessment clinical cognitive community counseling educational environmental family industrial organizational health school sports and transportation psychology Each entry provides a clear definition a brief review of the theoretical basis and emphasizes major areas of application [An Externalist Approach to Epistemic Responsibility](#) Andrea Robitzsch, 2019-06-21 This monograph provides a novel reliabilist approach to epistemic responsibility assessment The author presents unique arguments for the epistemic significance of belief influencing actions and omissions She grounds her proposal in indirect doxastic control The book consists of four chapters The first two chapters look at the different ways in which an agent might control the revision retention or rejection of her beliefs They provide a systematic overview of the different approaches to doxastic control and contain a thorough study of reasons responsive approaches to direct and indirect doxastic control The third chapter provides a reliabilist approach to epistemic responsibility assessment which is based on indirect doxastic control In the fourth chapter the author examines epistemic peer disagreement and applies her reliabilist approach to epistemic responsibility assessment to this debate She argues that the epistemic significance of peer

disagreement does not only rely on the way in which an agent should revise her belief in the face of disagreement it also relies on the way in which an agent should act This book deals with questions of meliorative epistemology in general and with questions concerning doxastic responsibility and epistemic responsibility assessment in particular It will appeal to graduate students and researchers with an interest in epistemology **Cognitive Processes** Lyle Eugene Bourne, Roger L.
