**Comparative Revolutionary Movements [By] Thomas H. Greene** Thomas H. Greene,1974      **Revolutions and Revolutionary Movements** James DeFronzo,2018-05-04 With crucial insights and indispensable information concerning modern day political upheavals *Revolutions and Revolutionary Movements* provides a representative cross section of the most significant revolutions of the twentieth and twenty first centuries This Fifth Edition is revised and updated with a new chapter on the Arab Revolution from its beginning in December 2010 to the present In this widely used text students can trace the historical development of eleven revolutions using a five factor analytical framework Author James DeFronzo clearly explains all relevant concepts and events the roles of key leaders and the interrelation of each revolutionary movement with international economic and political developments and conflicts including World Wars I and II the Cold War and the War on Terror Student resources include multiple orienting maps summary and analysis sections suggested readings chronologies and documentary resources      Revolutionary Movements in Central America Jeff Goodwin,1988      **No Other Way Out** Jeff Goodwin,2001-06-04 *No Other Way Out* provides a powerful explanation for the emergence of popular revolutionary movements and the occurrence of actual revolutions during the Cold War era This sweeping study ranges from Southeast Asia in the 1940s and 1950s to Central America in the 1970s and 1980s and Eastern Europe in 1989 Following in the state centered tradition of Theda Skocpol's *States and Social Revolutions* and Jack Goldstone's *Revolutions and Rebellion in the Early Modern World* Goodwin demonstrates how the actions of specific types of authoritarian regimes unwittingly channeled popular resistance into radical and often violent directions Revolution became the only way out to use Trotsky's formulation for the opponents of these intransigent regimes By comparing the historical trajectories of more than a dozen countries Goodwin also shows how revolutionaries were sometimes able to create and not simply exploit opportunities for seizing state power      **Revolutions** Jack A. Goldstone,Robert King Merton,1986      **The End And The Beginning** John A Booth,2019-07-09 In this second revised and updated edition Dr Booth assesses the performance of the revolutionary government since 1979 The structure and operation of the regime is closely examined as well as its policies and their implementation The author details the difficulties the Sandinistas have encountered with the breakdown of their revolutionary coalition and the emergence of domestic and external opposition He also discusses the difficulty of achieving economic recovery due to the effects of economic reorganization private sector fears and external economic sanctions Finally Dr Booth focuses on the foreign policy of the Sandinistas in particular their increasingly tense relationship with the United States      *A Comparative Study of Revolutionary Movements in Poland, Hungary and Czechoslovakia* Sandra Jean Lacy,1992
