Through the channels of the mass media celebrity psychologists urge us to realize that society has robbed us of our authentic selves That every moral standard or prohibition imposes on our selfhoods That what we have inherited from the past is false That we ourselves are the only truth in a world of lies That we must challenge virtually everything That we must wipe the slate clean and start over Each of these principles is a commonplace of pop psychology and each has almost unimaginably radical implications Where did pop psychology come from and what are its promises and fallacies How is it that we have elevated people like Phil McGraw Theodore Rubin Wayne Dyer M Scott Peck Thomas Harris John Gray and many other self help gurus to priestly status in American culture In Fool s Paradise the award winning essayist Stewart Justman traces the inspiration of the pop psychology movement to the utopianism of the 1960s and argues that it consistently misuses the rhetoric that grew out of the civil rights movement Speaking as it does in the name of our right to happiness pop psychology promises liberation from all that interferes with our power to create the selves we want In so doing Mr Justman writes it not only defies reality but corrodes the traditions and attachments that give depth and richness to human life His witty and astringent appraisal of the world of pop psychology which quotes liberally from the most popular sources of advice is an essential social corrective as well as a vastly entertaining and stimulating book *Interplay* Adler, Alfred, 1992
