Competing In The Age Of Digital Convergence:

Competing in the Age of Digital Convergence David B. Yoffie,1997 interfirm alliances **California Management Review** ,2002 The Business of Platforms Michael A. Cusumano,Annabelle Gawer,David B. Yoffie,2019-05-07 A trio of experts on high tech business strategy and innovation reveal the principles that have made platform businesses the most valuable firms in the world and the first trillion dollar companies Managers and entrepreneurs in the digital era must learn to live in two worlds the conventional economy and the platform economy Platforms that operate for business purposes usually exist at the level of an industry or ecosystem bringing together individuals and organizations so they can innovate and interact in ways not otherwise possible Platforms create economic value far beyond what we see in conventional companies The Business of Platforms is an invaluable in depth look at platform strategy and digital innovation Cusumano Gawer and Yoffie address how a small number of companies have come to exert extraordinary influence over every dimension of our personal professional and political lives They explain how these new entities differ from the powerful corporations of the past They also question whether there are limits to the market dominance and expansion of these digital juggernauts Finally they discuss the role governments should play in rethinking data privacy laws antitrust and other regulations that could reign in abuses from these powerful businesses Their goal is to help managers and entrepreneurs build platform businesses that can stand the test of time and win their share of battles with both digital and conventional competitors As experts who have studied and worked with these firms for some thirty years this book is the most authoritative and timely investigation yet of the powerful economic and technological forces that make platform businesses from Amazon and Apple to Microsoft Facebook and Google all dominant players in shaping the global economy the future of work and the political world we now face **Javnost** ,2002 **Issues in Science and Technology** ,1996 **Reengineering** Michael A. Mische,1997-10-24 On the cutting edge of information technology Reengineering Systems Integration Success skillfully guides today s organization through reengineering and beyond to gain the competitive advantage and extraordinary results that can only be realized with systems integration Make your organization a high performance company that leverages and integrates IT to outdistance the competition Reengineering s team of authors are seasoned pros as well as well known thought leaders and opinion makers *External Corporate Venturing* Thomas Keil,2002-05-30 Based on in depth empirical research this text is an examination of how external corporate venturing can enhance organizational renewal and a practical guide to help management apply it within their own organizations **Working Paper** ,1999 *Redefining Media in the Digital Age* Paolo Sigismondi,2024-08-10 The global rise of streaming and social media platforms and the influence of tech giants in increasingly more sectors of the economy including the media industry have disrupted the status quo of the global media competitive landscape This volume offers an insightful analysis of the profound changes in the competitive advantages in the media industry ushered in by digital convergence and their ramifications As Hollywood enters its second century it faces

novel challenges stemming from the digital revolution which are greater in magnitude and in impact than any of those brought in by previous communication technology revolutions in the last century These new challenges include the ascent of new competitors leading conglomerates arising from the digital revolution which as a result of the ever expanding reach of digital convergence are successfully operating in the media sector as well The new competitive dynamics are on display in the analysis of the streaming and social media landscapes This book sheds light on the clash of two institutional logics within the new attention economy and its consequences on the competitive landscape The legacy media institutional logics represented by the legacy media conglomerates revolving around the Hollywood studios which have established their primacy in the global mediascape for decades now directly compete in the new landscape shaped by digital convergence with the digital media institutional logics identifying the tech giants emerging victorious from the digital revolution The analysis utilizes the dichotomy between scripted and non scripted media entertainment as a framework to assess the diverse competitive landscapes business dynamics and their implications of the different segments shaping the contours and boundaries of the media industry

CEPR Publication ,1996 *Economic Development as a Learning Process* Franco Malerba, Richard R. Nelson, 2012 Until recently economists studying economic development have tended to consider it as a universal process or focused their attention on common aspects This book originates from the growing recognition of significant sectoral differences in economic development and examines the catching up process in five different economic sectors pharmaceuticals telecommunications equipment semiconductors software and agro food industries Each of these sector studies explore the learning and catch up processes in various developing countries in order to identify both the common features and those which differ significantly across sectors and nations The authors pay particular attention to China India Brazil Korea and Taiwan Edited by two of the leading scholars in the field this book will prove to be invaluable for academics and postgraduate students interested in economic and technological development and evolutionary economics Contributors include J O Adeoti S Athreye A C Castro R Diaz S Gu S Guennif X X Kong K Lee Y Lin F Malerba S Mani Q Mu R R Nelson J Niosi J Orozco S V Ramani R Rasiah J Song T Tschang
