**The Complete Beatles Chronicle** Mark Lewisohn,19?? [The Complete Beatles Chronicle](#) Mark Lewisohn,2010 In 1979 Beatles expert Mark Lewisohn set about establishing a complete list of the group s live appearances from 1957 through 1966 when they stopped giving concerts the research took seven long years and was published as the book The Beatles Live Shortly thereafter EMI Records invited Lewisohn to be the only person outside of the Beatles and their production staff to go into Abbey Road and listen to the entire collection of Beatles session tapes and to interview practically everyone involved in their making The result was published in 1988 as The Complete Beatles Recording Sessions and sold over 150 000 copies This book artfully combines and updates all the vital material in Lewisohn s earlier two books with his definitive account of the Beatles work in radio television film and video to create a complete day by day summary of the group s entire oeuvre First published in 1992 The Complete Beatles Chronicle has become the Beatles Bible the one book no fan can live without and a perfect companion to the bestselling Beatles Anthology which recounted their story in their own words

**The complete Beatles chronicle** Mark Lewisohn,2009-09-09 [Fandom and the Beatles](#) Kenneth Womack,Kit O'Toole,2021 More than 50 years after their breakup the Beatles are still attracting fans from various generations all while retaining their original fan base from the 1960s Why have those first generation fans continued following the Beatles and are now introducing their grandchildren to the group Why are current teens affected by the band s music And perhaps most importantly how and why do the Beatles continue to resonate with successive generations Unlike other bands of their era the Beatles seem permanently frozen in time having never descended into nostalgia act territory Instead even after the announcement of the band s breakup in 1970 the group has maintained its cultural and musical relevance Their timeless quality appeals to younger generations while maintaining the loyalty of older fans While the Beatles indeed represent a specific time period their music and words address issues as meaningful today as they were during the Summer of Love politics war sex drugs art and creative liberation As the first anthology to assess the nature of fan response and the band s enduring appeal Fandom and the Beatles The Act You ve Known for All These Years defines and explores these unique qualities and the key ways in which this particular pop fusion has inspired such loyalty and multigenerational popularity

**The Music of George Harrison** Thomas MacFarlane,2019-04-08 George Harrison was one of the most prolific popular music composers of the late 20th century During his tenure with the

Beatles he caught the wave of 1960s pop culture and began channeling its pervasive influence through his music Often described as The Invisible Singer his solo recordings reveal him to be an elusive yet essential element in the Beatles sound The discussion of George Harrison s Beatle tracks featured in the text employs a Songscape approach that blends accessible music analysis with an exploration of the virtual space created on the sound recording This approach is then used to explore Harrison s extensive catalog of solo works which due to their varied cultural sources seem increasingly like early examples of Global Pop In that sense the music of George Harrison may ultimately be viewed as an important locus for pan cultural influence in the 20th century making this book essential reading for those interested in the history of songwriting and recording as well as the cultural study of popular music

*Lennon and McCartney* Thomas MacFarlane,2022-09-30 Lennon and McCartney Painting with Sound explores the work of two of the most influential composers of the twentieth century Five decades after the breakup of the Beatles the music of John Lennon and Paul McCartney continues to fascinate and inspire Evidence suggests that their uniquely eclectic approach can be traced back to the Liverpool College of Art Following on that idea this book explores the creative dialogue between John Lennon and Paul McCartney both with the Beatles and on their own that grew out of that early influence The book is presented in three sections I Stretching the Canvas considers the Liverpool College of Art as the backdrop for John and Paul s early collaborations with painter and musician Stuart Sutcliffe This is followed by discussions of select works created by the Beatles between 1962 69 II Extending the Space focuses on the long distance creative dialogue between Lennon and McCartney as demonstrated in their respective solo recordings of the 1970s III New Colours considers the final works of the Lennon and McCartney creative dialogue as well as various McCartney solo projects released in the years that followed Lennon s death in 1980 Here the focus is on Paul s development as a painter its effect on his creativity and his subsequent efforts to establish the Liverpool Institute for Performing Arts as a world class arts conservatory

Tune In Mark Lewisohn,2016-10-11 Now in paperback Tune In is the New York Times bestseller by the world s leading Beatles authority the first volume in a groundbreaking trilogy about the band that revolutionized music The Beatles have been in our lives for half a century and surely always will be Still somehow their music
