## Already Awake:

**Being** Nathan Gill, 2006-03-21 Spiritual dialogues usually aim to guide the seeker towards enlightenment towards escape from identification as a suffering individual In *Being The Bottom Line* however Nathan Gill points out that enlightenment only appears significant from the viewpoint of me it s only the story of me that requires enlightenment Your true nature is Being and Being is already all that is even when there is seeming ignorance of that with no requirements whatsoever **The Gift of Beauty and the Passion of Being** William Desmond, 2018-07-06 This book gathers a set of reflections on the gift of beauty and the passion of being There is something surprising about beauty that we receive and that moves the passion of being in us The book takes issue with an ambiguous attitude to beauty among some who proclaim their advanced aesthetic authenticity Beauty seems bland and lacks the more visceral thrill of the ugly indeed the excremental We crave what disrupts and provokes us not what gives delight or even consoles By contrast attention is given to how beauty arouses enigmatic joy in us and we enjoy an elemental rapport with it as other Surprised by beauty our breath is taken away but we are more truly there with the beautiful when we are taken outside of ourselves We are first receivers of the gift of surprise and only then perceivers and conceivers My attention to the passion of being stresses a patience a receptivity to what is other What happens is not first our construction There is something given something awakening something delighting something energizing something of invitation to transcendence The theme is amplified in diverse reflections on life and its transient beauty on soul music and its relation to self on the shine on things given in creation on beauty and Schopenhauer s dark origin on creativity and the dynamis in Paul Weiss s creative ventures on redemption in Romanticism in the thought of Stanley Cavell on theater as a between or metaxu on redeeming laughter and its connection with the passion of being

for an understanding of Heidegger's transition from the major work of his early years *Being and Time* to his later preoccupations with language, truth, and history. First published in German in 1983 as volume 29-30 of Heidegger's collected works, *The Fundamental Concepts of Metaphysics* includes an extended treatment of the history of metaphysics and an elaboration of a philosophy of life and nature. Heidegger's concepts of organism, animal behavior, and environment are uniquely developed and defined with intensity.
